

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The Report of the Selectmen Appointed to Consider of A way near Love Street, Make their Report as Follows, Viz[t] Pursuant to the Vote of the Town on May the 5[th] last past.— We haue Viewed Love Street, And are of Opinion that it is for the Intrest of the Town as well as for the Accomodation of A Larg Neighbourhood, That Said Street be carryed through to Salem Street, But finding a Difficulty in treating with the [26.] Gentlemen concerned, we desire that (if they think fitt) The Inhabitants of the Town, would Desire, That the Gentlemen Justices belonging to this Town and the disintrested Selectmen may lay out the Said Street, so as may best Accomodate the Town and the Owners of the Land

Also on the Affair of m[r] Brattle Oliver near the South Batry, The Selectmen Reported as Follows Viz[t]

We are of Opinion That the Wharf Latly Rebuilt by m[r] Brattle Oliver, upon the Southerly End of the Out Wharf or Barricado near the South Sconce or Battry (So called) of Right belongs to the Town of Boston, being as we apprehend the Same which was Subscribed for and Built by the Late Honou[ble] Governor Leveret in the year 1673: for the use of Said Sconce in this Town and on their behalf, And inasmuch as the Said Out Wharfs Continue in a very Ruinous Condition, And there is no present prospect of A Speedy Repair, which we look on to be Contrary to the true Intent of the Antient Grant of the Flatts before the Town, to the Gentlemen that were then Undertakers, And also very much to the Damage of the Town, We are further of Opinion that it would be Advisable for the Town to take into Consideration the Reports of the Com̄ittee Appointed Anno: 1728 — To Inspect the Ruenous Condition of the Said Out Wharfs And the Honou[ble] the Representatives of this Town as then be again Desired to Lay the Same before the General Court for their Confermation, And in the meantime That the Town who by the Hono[ble] Governor Leveret aforesaid Subscribed for Seventy fiue feet in Said Undertaking Appoint A Com̄itte to Indeavor a meeting of the Proprietors of Said Wharf in Order to Know their Several parts or Shares Subscribed for and Built, And in Special that the part belonging to the Town may be made Certain and so Rendered Benefitial. Which Report was Read &

Voted and That the Report of the Com̄itte Appointed in the

year 1728 To Inspect the Ruenous Condition of the Out Wharfs be Revived and Comitted to the Representatives of this Town and that they be Desired to Indeavor A Confermation thereof

Also about the Incrochments of the North Side of the Long Wharf Comitted to the Selectmen to Enquire into

[27.] They make their Report as follows Viz^{t}

We haue also Viewed the Long Wharf, find that there are Several Aditions made on the north Side thereof Viz^{t} By m^{r} Selby, m^{r} Pitson, m^{r} Gerrish & Co^{ll} Minot, for which in our Opinion, They haue no Authority in the Grant of the Flatts made by the Town to the Proprietors of the Long Wharf aforesaid, In as much as the Said Proprietors haue before Built Out the full width Assigned them by the Town for that Service —

To Elisha Cooke Esqr Samuel Welles Esqr Habijah Savage Esqr & mr Thomas Cushing Jun.

Gentlemen

We the free holders and other Inhabitants of the Town of Boston duly qualified and Regulerly Assembled. In Confidence of your Integrity, Wisdom and Courage, Have Chosen you to Represent us in the Great and General Court of this Province for the year Insuing. And althô we do not in the Least Question your Faithfullness to the True Intrest of this Province in Generall as well as to the Trade and Business of this Town in Perticuler, Yet Esteeming it our Duty in this unhappy Juncture (where in Our Laws, Liberties, & Properties are in the Greatest Danger) Earnestly to Request of you to Exert all your Powers in Conjunction with the other worthy Members of the Honourable House of Representatives To Guard against and Defend us from all Incroachments whatsoever, That may be attempted against our natural

Rights or Charter Priviledges, And that our minds may be always Present in your Thoughts. We would more Perticulerly Recommend to you.

1st That you use your utmost Endeavor, That His Excellency our Governour Have an Honourable Support Sutable to the Dignity of His Station and the Circomstances of this Province. And in as much as we are aprehensive that the fixing a Salary on the Governour may Produce fatal Consequences, we confide in and Rely upon you to Exert your utmost power and Influence to prevent the Passing any Bill in the Honourable House of Representatives Relating to His Support which may Setle the Salary for any Limitted Time or that may Prevent Obstruct or any ways Impede Future Assemblys from acting with the Same freedom former assemblys have Enioyed.

2ly We Earnestly Recommend to you the Care of the Treasury, And that you use your utmost Endeavor That it be Supplyed with Such Sufficient Sums of Money as is necessary to answar the Great Charge of the Province both Past and Future, and we depend upon you That it be Don after such a manner as is Consistant [36.] with the Safety of this Province, and the Preservation of our Rights and Priviledges; And in as much as the Charter gives the Great and General Court full power to Support the Government Here by Enacting Such Laws and Ordinances as they in their Great Wisdom Shall Judge best Adapted to Subserve the true Intrest of His Majestys Good Subjects of this Province A Complyance with His Majesties Instructions would Enevitably Clash with the Power of making Laws, and Deprive this People of one of the most valuable Priviledges Held and Enjoyed by the Charter.

We therefore Enjoyn you to Oppose any Bill for the Supply of the Treasury That may be Brought forward in the Honourable House of Representatives, That may in the Least Bear upon Our Natural Rights and Charter Priviledges — which we aprehend the giving in to the King's Instructions would Certainly do

3ly Where as There has bin Granted away in time Past Vast Tracts of Land for the Setling new Town Ships in Answar to the Prayer of Divers Petition, That Haue bin Prefered, and too often Influenced by Perticuler Persons, who by their Art and Cunning haue Gained, to them selves Great Advantages thereby without being at little or no Charge in forwarding and Setling Those Townships Whereby Great Hurt and Damage has bin don the Province. Wee therefore in an Especiall manner Recomend to you, That you use your utmost Endeavors That the unappropriated Lands Lying within the Late Colony of the Massachusetts, New Plimouth and Province of Main be Divided to and Among the Several Towns within this Province, In the Most Just and Equal Proportion, The Court may agree upon And Subjected to Such Terms of Setlement as Shall be ordered. The Giving and Granting away the Publick Lands in the way and Method Lately Endeavored after being only to Serue Some Perticuler Persons, And give others on oppertunity to Enrich them Selves by Indirect means, we therefore Give it in Charge to you, That you use your utmost Influence That no Lands be disposed of To Perticuler Persons But to the Several

Towns in Equal Proportion Throughout this Province. Those three articles are what we haue Thought Propper to Recommend to you, And is in Order to Prevent any Sugestions that may be Insinuated, That in acting on any of those Heads, you do not act agreeable to the mind of your Principals or to Prevent any adjornments or Prorogations to Consult your Principalls as Has bin Don heretofore.

[37.] NATHAN^{LL} CUNNINGHAM.
SAM^{LL} WALDO

Gentlemen

We the free holders and other Inhabitants of the Town of Boston Duly Qualified and Regulerly assembled &c.

In Confidence of your Integrity wisdom and Courage haue Chosen you to Represent us in the Great and General Court of this Province for the year Insueing, And althô we do not in the Least Question your faithfullness to the true Intrest of this Province in General, as well as to the Trade and Busyess of this Town in Perticuler, yet Esteeming it our Duty in this unhappy Juncture (wherein our Laws Libertys and Propperties are in the Greatest Danger.) Earnestly to Request of you to Exert all your Powers in Conjunction with the Other members of the Honourable House of Representatives to gard against and Defend us from all Incroachments whatsoever that may be attempted against our Natural Rights or Charter Priviledges, And that our minds may be always Present in your thoughts.

[48.] We would more Perticulerly Recommend to you.

1st. That you use your utmost Endeavor That His Excelency our Governor may haue an Honorble Support Sutable to the Dignity of His Station and the Circomstances of this Province. And Inasmuch as we are apprahensive that the fixing a Sallary on the Governor may Produce fatal Consequences, We Confide in and Rely upon you to Exert your utmost Power & Influence, To prevent the Passing any Bill in the House of Representatives, Relating to His Support which may Settle the Salary for any Limited time, or that may Prevent Obstruct or any ways Impead future assemblys from Acting with the Same freedom former assemblys Haue Enjoyed you are to Oppose any Bill for His Excelency Support unless in the Same Bill Provision be made for the Payment of all Publick Debts of the Province.

2ndly. We Earnestly Recomend to you, The Care of the Treasury, and that you use your utmost Indeavor, That it be Supplyed with Such Sufficient Sums of money as is necessary to answar the Great Charge of the Province both Past and future, And we depend upon you That you Oppose the Passing any Bill for the Supply of the Treasury for the Payment of any Accot of Charge or Expence of Publick money, unless there be a Clause Inserted, That the whole General Court haue the Inspection of the accot before Payment, And we Depend upon you That it be Don after Such a manner as is Consistant with the Safty of this Province and the Preservation of our Rights and Privileges. And inasmuch as the Charter Gives the Great and General Court full power to Support the Government here by Enacting Such Laws and Ordinances as they in their Great wisdom shall be best adapted to Subserve the true Intrest of His Majestys Good Subjects of this Province. A Complyance with His Majestys Instructions would Inevitably Clash with the Power of making Laws, and Deprive this People of one of the most valuable Priviledges held & Enjoyed by the Charter.

We Therfore Injoyne you To oppose any Bill for the Supply of the Treasur, that may be brought forward in the Honourable House of Representatives That may in the Least Bare upon our natural Rights and Charter Priviledges which we apprahend the giving in to the Kings Instructions would setainly do.

3ly. Whereas there has bin Granted away in time past vast

Tracts of Land for the Setling new Townships in Answar to the Prayer of Divers Petitions that haue bin Prefered and too Often Influences by Perticuler Persons who by their Art and Cunning haue gained to themselves Great Advantage therby without being without Little or no Charge in forwarding & Setling those Townships, Where by Great Hurt and Damage has bin don the Province.

We Therfore in an Espetial manner Recomend to you, That you use your utmost Endeavor That the unapropriated Lands Lying within the Late Colony of the Massachusetts New Plimouth and Province of Main be [49.] divided to and among the several Towns within This Province in the most Just and Equal Proportion the Court may agree upon, And Subjected to Such Terms of Settlement as Shall be Ordered.

The giving & Granting away the Publick Lands in the way and Method lately Endeavored after being only to Serve Some Perticuler Persons and give Others an Oppertunity to Inritch them Selves by Indirect means, We therfore give it in Charge to you That you use your utmost Influence, That no Lands be Disposed of to Perticuler Persons But to the Several Towns in Equal Proportion throughout this Province. These three Articles are what we thought Propper to Recomend to you, And is in Order to Prevent any Suggestions that may be Intimated. that in Acting on any of these Heads you do not Act Agreeable to the mind of your principals, or to Prevent any adjornments or Prorogations to Consult your Principals as has bin done Heretofore.

upon a motion made

mr nathaniel Cunningham made a motion. That the Town would alow Som thing toward the Charge of a Private watch in the Town at the Dock. Left for Consideration.

Voted. That Edward Hutchinson, Anthony Stoddard, Thomas fitch, Samuel Sewall, junr, and Jacob Wendell Esqrs be the Said Committee.

Voted. That this meeting be adjorned to Fryday August the tenth Currant at fiue of the Clock afternoon.

The Town being met August the Tenth According the adjornment. The Comitte made their Report which is as follows vizt.

We the Subscribers being appointed a Committee by the Town of Boston at their meeting on the first Instant, to prepare Some Reasons, to be Offred to the Town in order to be layed before the General Court, why the Petition of John Metcalfe of Dedham Esqr Joshua Morse of Medfield and others, for Erecting a new County out of the Countys of Suffolk & Midlesex Should not be granted, having and Considered that afair.

Humbly Offer our Reasons against the Same.

[56.] 1. That there haue bin fiue of the most Remote Towns belonging to this County, vizt Mendon, Woodstock, Sutton, Oxford & Uxbridge lately taken off from this County, towards Erecting another, by which means the County is so Reduced, that the Inhabitants of even the most Remote Towns remaining in this County haue not far to travel to their County Town, whereas in England, their Countys are vastly mor populous, and many of them of much Larger extent, And great Numbers of the People in divers of the Countys are at a greater distance from their Sheir Town that

any of the People in the County of Suffolk are, and yet they haue Contentedly Remained So ever Since the Reign of King Alfred, and if it had bin found inconvenient or detrimental to the people, that live in those large Countys, undoubtedly from that time to this, they would haue moved to the Parliament for Releif & endeavors would haue bin us'd To Lesson them, which we never heard of.

2. That there is only the Town of Dedham of the Several Towns desiring to be Set off that sends any Petty Jurors to the Court of Common Pleas or General Sessions of the Peace, And Some of them Send no petty Jurors to the Superior Court nor Grand Jurors to either Court which manifests that their Attendance &c. on the Courts can't be so buthensome as they would Insinuate especially considering there has lately bin made a Considerable augmentation of the Jurors Fees by the Legislature

3. That in Case the Towns Petitiond for Should be taken Off, from the County of Suffolk, yet it will be no ease to them in Such Cases wherein the Plantifs dwell in Said County, for they must then give their attendance at the Several Courts, as they now do.

4. That there being frequently Causes depending between His Majestys good Subjects in Boston, and the adjacent Towns, conserning titles of Land and other matters, and many gentlemen in the Country Towns being very well Qualified, may be very Servesable as Jurors in Such Cases &c. of which having had long Experience, we can not Esteem it Reasonable that this County Should be Debarr'd any further of the good Services of its Country neighbours within the County nor to act so disagreeable to the long Experienced, well Regulated and Established practice in the South part of Great Britain So to Lesson the County.

5. That to Multiply Countys is not for the Publick good, for instead of easing them that Petition to be Set off it will Increase their Charges for they must build a Court House and A Prison &c. and must of themselves furnish Jurors, for the Superior and Inferior Courts and Gen^{ll} Sessions of the Peace, and if they Should be Set Off it will tend much to multiply Law Sutes among them, and other mischifs and Inconveniences would Increase, besides the Multiplying of Countys may prove Injurious to the Publick, by the Governments, at Home being induced [57.] to think we are bigger and more Considerable then we realy are, for we have Eleven County's in this Province already, whereas in England, they haue but Forty County's, although they they are Computed to be Fifty times bigger then this Province.

To Conclude if the prayer of the Petition should be granted, it would be a bad president, for with the Same Semblance of Reason other County's may Seek to be divided, and by this Method, the Province would be Subdived into Petty Countys, whereby the Charges and inconveniences of the People, would be vastly increaced, Wherefore humbly hope our Fathers in the Government, will Se just cause to Continue the County of Suffolk as it now is, and to dismiss Said Petition which to us Seems unreasonable

The Committee of seven Persons appointed the 12th instant, to view and report their Opinion of the most convenient places in this Town for Fortifications, Reported, as follows, Viz'

That it is very proper to have Six Guns with a Breast work plac'd at the Southerly Part of the Old South Battery to prevent landing Men in Boats and small Vessels.

That the Easterly End of the Long Wharf is the best place to build a Battery on, most effectually to annoy the Enemy, and to defend the Town, and it would be proper to have Twenty Guns placed there, At present the Wharf being but about 112 feet in length in the East Front, it will allow as it is now of no more than 8, or 10 Guns,

[71.] Wherefore the Committee Judge it would be best to lengthen it both Southward and Northward to about 120 feet more, and to add 15 or 20 feet more inward to the depth thereof, and in the mean time to plant as many Guns as it will allow.

That it would do well to have Six Guns plac'd on Clark's Wharf, both to meet the Ships coming up, and to rake any Ship that may attempt to board the Battery at the End of the Long Wharf; but as that is not the Towns property, if Guns were assigned for it, they may be fixed, when the Town sees meet and necessary.

That upon Viewing and Examining the North Battery and its Circumstances, the Front being much Worm eaten and decayed, and settled too low down, It appears necessary to build without the Front thereof a piece of Wharf of 15 feet deep, and the same to be continued, round the Northerly End where the new addition must be 35 feet, and all well tyed to strengthen the Old Wharf, All which is Humbly Submitted by,

The Committee appointed the 12 Mar. 1733. to think of and assign Three Suitable places for erecting Markets having the several places hereafter mentioned, Are of Opinion

1. That the Vacant Space call'd Eliots' Wharf, with Mr. Jonathan Willis's Land fronting next the Street over against Mr. Tho[s] Downe's, or a peice of Land near it about 90 feet square on the Northerly Side of the High Way leading to Mr. Daniel Loring's Fronting on the main Street, belonging to the Rev. Mr. Jacob Eliot, would either of them suit well for a Market at the South End, if could be Obtained on reasonable terms. If not, The Space in the Common between Mr. Jacob Sheaf's house & the

School House, has been by some recommended, and would afford Roomly accomodations for A Market.

2. That the Open Space on the Town Dock or Wharf is a suitable Place for a Market in the Middle of the Town.

3. That the Open Space before and about the Old North Meeting House is a Suitable Place for a Market for the North End of the Town.

The Computation made by Mess^{rs} Young and Russel of the Cost of the buildings, We approve of, but as we now think of an Addition to the House for the South Market, and of laying Shingle Ballast before the same as well as the other, the Cost may probably be about Six hundred and Forty Pounds.

The Expence to be defrayed, either by Leasing the Ground to the Undertakers to build the Houses for a Term of Years.

[**80.**] They making good preparation for the Conveniencies of the Market's, and the Town to allow them for the buildings what they shall be valued to be worth at the Expiration of the Term; Or Else, to be defrayed at the Charge of the Town by a Tax.

Pursuant to a Vote of the Freeholders and other Inhabitants of the Town of Boston duly qualified and regularly Assembled by Adjournment at the Town House in Boston, upon Tuesday Mar. 26, 1734. Appointing us a Committee, separate from the Select Men, to inquire into the State of the Long Wharf, in Order to plant Guns thereon.

We have this day been upon, viewed & survey'd the End of the Long Wharf, and find the same to be much decay'd and worm eaten, and by the wash of the Sea the small wood laid in the Wharf is carried away leaving great Cavities [96.] Therein, and the Foundation greatly weakned, Which in our opinion was not at first faithfully laid, and performed.

And in our opinion it is not in a condition of repair for the planting a Line of Guns thereon, nor can it in the present state thereof be useful or serviceable to the Town for the same. And further, We find the end of the said Long Wharf incumbred with a Crane House thereon, which ought to be free, for the Service of the Town conformable to the Original Contract, between the Proprietors of the Long Wharf and the Town of Boston.

Dated at Boston the 28th. day of Mar. Anno Dom. 1734. And humbly Submitted, by,

BRIANT PARROTT,

To His Excellency Jonathan Belcher Esq^{r}. Captain General and Governour in Chief, the Hon^{ble} The Council, & House of Representatives, in General Court Assembled, Apr. 10. 1734.

The Representation and Petition of the Town of Boston.

Humbly Sheweth.

That the Said Town is in a very defenceless condition, That the prospect of War makes it exceeding necessary, Some considerable Works should be raised for its Security; [**99.**] That this is very much for the Safety and Welfare of the Province in general, as this Town is the Key of it, and will be most likely to be expos'd to danger in case any design be formed against the Country. And as the Trade and Business of this Town Labours under great Difficulties, and their Circumstances are very declining by reason whereof so great a Charge would be almost insupportable, It would be a high Obligation upon them, if this Great and General Court in their Wisdom and Goodness would make a Grant of a Sum of Money for that purpose, but if this should not be thought convenient — It is most Humbly Requested, That the Sum of Ten Thousand Pounds be lent by the Government, to be paid, in some future years, and in such Annual proportion, by the Town of Boston, as by the Wisdom of the Court, shall be Judg'd most proper, Said Town having made a Computation and found that this Sum is necessary to put it into a defensible State.

[**100.**] Wednesday, April, 3d.

The Town being Assembled, according to Adjournm^{t}.

The Committee for Effecting the Fortifications presented their Report respecting the Materials, and Method of Building, Which was Read. Viz^{t}.

Pursuant to the Vote and Desire of the Town, of the 29th of March last, The Committee taking with them Several of the Masons & Carpenters of the Town, Who, after Viewing the place assigned for Erecting the North Battery, have Computed the Cost and Charge of Building the Foundation Five feet in heighth, with Stone and Wood.

If with Stone, The Front Wall to be Eight feet thick, with an inner Wall of Three feet, A Space of Four feet between the Walls,

Which Work will demand the Sum of One Thousand and Eighteen pounds.

If done with Timber, defended against the Worms, Six Hundred, Forty Seven pounds.

The Difference between Wood and Stone is Three Hundred, Seventy One pounds.

Upon Searching the Bottom or Flats where the South Battery is to be Built, the Ground is so loose that a Pole was run down in several places, Ten feet at least. But that about Two Hundred feet Easterly from the South Battery, or Sconce, is a good Foundation, and not nearer, on any of the Flats thereabouts, Either on the East or West Side of Fort-point Channel for Stone.

By Order of the Committee,

Boston Apr. 3. 1734. ELISHA COOKE.

[101.] After Debate thereon,

A Question was put, as follows, Viz^{t}.

Whether the Town will Reconsider the Vote, passed the 15th March last, Affixing the Fortification on the East Side of Fort-point Channel?

It pass'd in the Affirmative.

After which the following Question was put, Viz^{t}.

It pass'd in the Affirmative.

Voted, That the Town will now come to a determination of a Place, Whereon to Erect a Fortification at the South part of the Town.

Immediately after which, Upon a Motion made, and Seconded by many.

The following Vote was put, Viz^{t}.

Whether the Town would adjourn this Meeting to Fryday next, in Order then to come to a Determination of a Place for Erecting a Fortification at the South End of the Town?

A Handy Vote being tried Twice, and remaining Doubtful, it was afterwards decided by Poll.

The Number of Voters, were, 175. Of whom 89 were for a present or immediate Determination, and 86 were for defering it until Fryday next.

[102.] Upon which, The Following Question was put, viz^{t}.

Whether the Place for Erecting the South Battery shall be, Two Hundred feet East from the Sconce long since built there, Or the South Battery so called? And —

It pass'd in the Affirmative.

Voted, That the Market shall be Opened, Or, Commence, on Monday, the Twentieth day of May, next ensuing: Public Notice thereof being given Ten days before the said Time

Voted, That this Meeting be Adjourned to Four of the Clock p. m.

Being again Assembled,

And Upon Consideration had

Upon a Motion, and at the Desire of the Select Men.

Voted, To Reconsider the foregoing Vote.

Which being accordingly done,

Voted That the Hon^ble^ Joseph Wadsworth Esq^r^ the Town Treasurer be Desired and Impower'd to Borrow Money (upon the Credit of this Town's Grant of Ten Thousand Pounds, on the 20th. of March last, appropriated to the use of Fortifying the Town) for a present Supply, and the [**104.**] Speedy carrying on the Said Work.

[105.] The Copy of an Address presented by the Select-Men, To the Great and General Court, agreeable to a Vote of the Town, the Third of April, 1734. Viz^{t}

To His Excellency Jonathan Belcher Esqr Captain General and Governour in Chief, The Honble the Council, and House of Representatives, in General Court Assembled, April, 10. 1734.

The Representation and Petition of the Town of Boston.

Humbly Sheweth

That the prospect of War in Europe makes it exceeding necessary that this Town be put into a proper posture of Defence and Offence, And inasmuch as the Fortifying the same will greatly tend to the Safety, Peace & Welfare of the whole Province, And should War break out, and any design be formed against this Country, in great probability, Boston will be first attacked, & obliged to sustain the strongest Efforts of an Enemy.

It is therefore most Humbly Requested, That Your Excellency, and Honours, would Grant a Sum of Money for that purpose.

But if at this present Juncture, the situation of the Public Affairs consider'd, the Great and General Court should not think it adviseable so to Order;

It is then Earnestly Desired, That the Court would be pleas'd to Grant the Sum of Ten Thousand Pounds, in public Bills of Credit, out of the Province Treasury, to be paid into the Treasury of the Town of Boston, to Enable them to Effect such necessary Works, And Subject the Town by an Act or Law to Repay said Sum into the Public Treasury, in some future Years, in such Annual Proportion as by the Wisdom of the Court shall [106.] Be Judged reasonable; For that the Town of Boston, could they esteem it but Just and Reasonable to engage in this Business at their own Cost and Charge, Yet they are in no measure capable, to Raise so great a sum of Money, and subject themselves to the payment thereof in so short a time, as the carrying an end such an Affair will require.

By Order of the Inhabitants of the Town of Boston, regularly Assembled in a Public Town Meeting, April, 3d. 1734.

The Copy of an Address Presented to the Great & General Court, by the Select men of the Town of Boston, pursuant to Votes of the said Town the 8th & 21st of May 1734 — Viz^{t}

To His Excellency Jonathan Belcher Esq^{r} Capt^{n} General and Govern^{r} in Chief; The Honourable the Council, and House of Representatives, in General Court Assembled, May 29th 1734.

The Representation, and Address of the Town of Boston. — Humbly Sheweth —

That the prospect of War in Europe, renders it highly Necessary, That this Town be put into a proper posture of Defence, and Offence; Forasmuch as (should there be a Rupture, and any Design form'd and Executed against this Country) Boston would, in great probability, be first Attacked, and Obliged to Sustain the strongest Efforts of the Enemy: And whereas the Fortifying the same, will greatly promote His Majesty's Honour and Dignity here, much tend to the Safety, Peace, and Welfare of His Good Subjects throughout this Province, And also be for the security (122.) Of the very valuable Effects constantly Lodg'd in this Place, on Account of His Majesty's good Subjects in Great Britain.

It is therefore most Humbly Requested, That Your Excell^{cy} & Hon^{rs} would, out of your Great Goodness Grant a Sum of Money for that Purpose.

But if the General Court should not think proper so to Order.— It is then humbly and earnestly intreated.

That yo^{r}. Excell^{cy} & Hon^{rs} would be pleased to Grant the Sum of Ten Thousand Pounds, in Public Bills of Credit out of the Province Treasury, to be paid into the Treasury of this Town to Enable them to Effect such necessary Works, and subject the Town by an Act or Law to repay said Sum into the Public Treasury in some future Years, in such annual proportion, as by the Wisdom of the Court shall be judged most reasonable. —

May it please Yo^{r}. Excellency and Honours —

We cannot but humbly Apprehend, that by Yo^{r}. favourable Regard to this Petition of the Town of Boston, they might be put

nto such a state of Defence, as might much better secure, Not only their own Peace and Welfare, but that of all other the Inhabitants of this His Majesty's Province or Territory.

And therefore, could it be thought just & reasonable for the Town to Engage in this Affair at their own Cost and Charge, Yet they are at this Juncture under great Necessity to make this Humble Application to Yo^{r}. Excellency and Honours for aid and relief on this Important Occasion — Since the Trade of the Town (their only support) is under such great decay, and consequently the Inhabitants under such Impoverishing Circumstances, That it is impracticable for them by a Present Tax, to raise so large a Sum, as is absolutely necessary, to Accomplish this great Affair of the Fortifications.

Which is as follows, Viz^{t}

Whereas it is found by Experience, That the Public Markets lately Established in the Town of Boston (which were chiefly designed for the Accommodation of the Country People) are very much incumber'd by the Butchers dwelling within the said Town, bringing their Meat there to Sell.

[127.] For Remedy thereof.

It is Voted and Ordered. That no Butcher, being an Inhabitant of the Town of Boston, Shall, either by himself or his Servant, or any other Person employed by him bring any sort of Provisions into any of the said Places assigned for the Markets, there to Sell, or Expose the same to Sale.

The Select Men are of Opinion, That upon Application made by the Butchers, it may be adviseable for the Town to build Stalls for them, at a suitable [128.] Distance from the several Market places, They paying a reasonable Monthly Rent for the same, And to be under the Regulation of whom the Town shall think fit to Appoint.

Upon which the following Question was put, Viz^{t}

Quest. Whether You do not apprehend, That it was the true intent and meaning of this Town, at their said Meeting and in the fore recited Vote, That Yo^{r}. Representatives should strenuously Oppose the Raising of the Fines of the Militia —— But, if a Bill was likely to pass for that End —— Then they should Endeavour, That a clause or paragraph should be brought into such Bill, to Oblige the Captains, or other Officers receiving such Fines, to be accountable to the Town Treasurers of the Several Towns?

We find Recorded, A Way laid out Fifty foot wide from Bull's Corner to Windmill point And the Flats Granted below on Condition the Proprietors maintain s^{d}. Way the full breadth. We find said Breadth narrows in several places by Buildings thereon. We find another Way of Fifty foot wide laid out on the Beech, from the High Way between Deacon Allin's and Abel Porter's, now leading down to Mr. Hill's Wharf to meet the Other way at Windmill point ——— but on what part of said Beech, said way is laid out is altogether Uncertain. We find some part of said Beech incumber'd by Wharfing and Buildings and the other part Encroach'd on by the Sea and washt away.

We therefore Propose, A Committee be Impowered, to Treat with the Abutters on the Way laid out on the Beach, In Order to lay out a Way above the Beech, tho' not so wide as Fifty foot which may better accommodate the Town with a smaller Charge and less damage to the Abutters than to have the Way Over the Beech as Originally laid out. And Also Cause the Encroachments on the Easterly Side of the Way to be removed, that so the Street

may have its full breadth of Fifty foot, And Report their doings thereon to the Town for their Approbation.

[158.] Imp^r. That all Deeds, Leases, Releases, and Instruments in Writing made and Executed by the Select Men of the said Town in their said Capacity or the Town Treasurer in his said Capacity be Registred by the Town Clerk in a Book of Records to be specially kept for that purpose ——— By which Means, a few Hours may discover a Hundred years Transactions, When much time may be spent in Searching for Papers on File ——— Which Files are liable to be Mislay'd, or lost, ——— Of which this Town has a Memorable Instance in the loss of a Paper of the greatest concern to the Town

2. That the Books and Files of Papers relating to the Town Treasurers Office, be kept in the Town House in Boston, and not in a Private House. ———

3. That the Town Clerk be directed to wait on Mrs. Prout Relict Widow of Mr. Joseph Prout formerly Town Clerk of this Town, And Demand and Receive of her all such Files and Papers that are now in her Custody of Right Appertaining to the Town.

4. That as the Release of Mr. Blackston the First Proprietor of the Town of Boston, made by him to the said town is now on File in the Town Clerk's Office, as also the Indian Deeds to the Select Men ——— That the Said Release and Deeds be Registred

by the Town Clerk in his said Office, That so the Town may have Recourse to the same when there may be Occasion therefor ———

5. That the Several Reports of Committees and Proposals for some time past laid before this Town be Collected and Read to the Town in their present Meeting, That so the Town may know what has been done thereon, And how far further they may Judge meet to proceed therein.

That as a Certain Lease from this Town [**159.**] To Mr. Henry Hill Distiller late Deceased, is now on File in the Town Clerks Office, Wherein the Town Leased to Mr. Hill the Land on which Hill's Still House and Wharf (so called) now stands with the Land adjoyning thereto (near Wind Mill point) for a small Quit Rent, Which Lease is long since Expired and as yet is uncancell'd ——— That therefore the said Lease be produced and Read in this present Meeting, That so this Matter may Appear in a true light, That the Town Right may not be stifled, Nor the Town stript of its just due. ———

7. That as about Eight years since the Charge for the Support and Maintenance of the Poor of the Town amounted only to the Sum of Eight Hundred pounds p Annum, And the Expence is now Arisen to the Sum of Twenty five Hundred pounds p Annum ——— It is therefore Proposed, That the Gentlemen the Overseers of the Poor lay before the Town this Present Meeting an Accompt of the Charge on the Public Poor maintained in the Almes House, And an Accompt of the Expence on the Private Poor Supported out of the Almes House Separate and distinct for the year past. ———

8. That there be a Committee specially Appointed to make strict Enquiry into the Ability and Learning of the Masters of the Free Writing Schools within this Town, and what Proficiency the Children under their Care have made, or are like to attain in Reading, Writing and Arithmetick For as the want of Able and Accurate Masters in the Initiating Youth in the Rudiments of Learning will prove fatal and prevent the true design of Education ——— It is therefore hoped that as this Town has appeared Generous in the Encouraging Learning and good Literature, it will ever be Supply'd with School Masters Equal to such an Excellent Employment, And that they may be duly and honourably Encouraged. All which is Submitted

Boston, August, 14. 1735.

To the Honourable the Committee, chosen by the Town, at their Meeting on the Fifth of this Month, to Desire the Ministers of the Town to take their Turns in Preaching the Gospel to the Poor in the Alms-House.

Gentlemen

The Ministers of the Town have this Day Considered of the Towns Desire, and hold Themselves Obliged, wherein they are able [172.] To Minister unto the Poor of the Town in General, and to the poor People in the Alms-House in particular, as well as unto Those of their respective Flocks. And altho' We should have been Well pleased, if the Town had seen good to have Continued the Worthy and Reverend Mr. Adams in the Service of Said House; being a Person in Our Esteem excellently Spirited to have Served the Poor there with all Humility of mind. And to have naturally cared for their Souls; Yet We submit to the Pleasure of the Town Signified to us in their late Vote, So far as may Consist with our other Pastoral Duties to the Flocks to which we stand related.

We think it proper at the same Time to remind the Freeholders and other Inhabitants of the Town,

That after our best Cares and Endeavours in Times past to Preach in our Turns to the Poor in the Alms-House, We have seldom been Able to go thro' Our courses: And now, Some of Your Ministers are more Advanced in Years, And others labouring under Bodily Infirmities, And three of Our Number are alone in the Pastoral Offices, And therefore cannot so well Undertake to Serve in their Turns, as is Desired:

Nevertheless, the most that can be Expected of Us, Under these disabling Circumstances, Will, We trust, be willingly rendered by Us (by the Help of God) if the Town should not be perswaded to Think, As We do, That the Concerns of the precious Souls of these poor People would be better Serv'd by the Ministry of some Suitable Person Statedly Employ'd among them.

We do Ourselves the Honour [173.] Humbly to Subscribe, As in Duty bound.

Your Servants for Jesus Sake,

BENJAMIN COLMAN

In the Name of the Associated Pastors.

The Report of a Committee appointed the 5th and 15th of August last past, to Draw up an Answer to the Petition of John Bowles, Tho^s. Tileston and Others, For making Boston a County by it self, being Presented, and Read as follows, Viz^t.

Province of the Massachusetts Bay Sc. } To His Excellency Jonathan Belcher Esq^r. Captain General & Governour in Chief, The Hon^ble. the Council and Hon^ble. House of Representatives in General Court Assembled at Boston the 19^th Nov. 1735.

The Answer of the Inhabitants of the Town of Boston to the Petition of several Representatives in and of the County of Suffolk for dividing the County of Suffolk and making Boston a County by it self, with their Reasons against it.

The Inhabitants of the Town of Boston are Humbly of Opinion, That it's most Advantageous both for them and also for the Rest of the Towns of that County to be held in One County still, upon Several Accompts.

I. For the Ends of Friendship, Trade, and Business. For these Common and Usual Assemblys of the Courts in Boston, Gives Men decent Opportunitys for Friendly Society and Matters of Trade and Business, and certainly Unites us more in Our Affection, and promotes our Mutual Interest and Wealth.

II. For the Ends of Justice, and Law ——— Because [**175.**] 1^st. The more we are United, the more Uniform and steady will the Rules of Justice in Our Courts be, For all men do not Apprehend things alike, Different Courts will have different Apprehensions in particular Cases, and that will Naturally breed different Rules of Justice upon particular Circumstances, and this

tends to Render Justice unsettled and precarious in the several Places, When as if these several Courts were United, most probably the Truth would prevail, and the Rules of Justice be more steady, and this plainly appears in the strong and Steady Administration of Justice in the Supream Courts of the Kingdom. 2ly. The more We are United, the more Our Judges, by the Recompence now allowed them, will be Enabled to Study the Law And furnish themselves still further with Power agreeable to their Place and Duty. Their Business and Office requires a steady Application Not only to the immediate administration of Justice in the several Sessions of Our Courts ——— But to the Books of the Law, to Instruct their minds and form their Judgments. That their Administrations of Justice may be the more conformable to the Universal Reason of all Mankind. Now the bigger our Counties are, the more Contracted will the Business be, the Fees and Profits of the Judges be shared among the fewer, And the more Business dispatch'd in less time and that continued without interruption and wasteful vacancys interposed.

As to the Reasons for Dividing the County, ——— We Humbly Conceive them to be of no weight.

For Instance,

1st The Charge, they say, is great in the long Attendance of Witnesses and Jurors, Especially at the Superiour Court. But the Remedy is Easy and plain, Namely, That there be Four Terms of the Superiour Court in a Year, which is now come to be of absolute Necessity, and will be found a vast advantage to Common Justice and [**176.**] Right, and if need be the Justices of that Court upon a Motion can set the Days of Tryal for such Actions as specially need it, at the beginning of the Court and put up the Actions every day for Tryal that day, And by this means the Attendance of Witnesses and Jurors, will be Eased Sufficiently for many years, And it is but to Order more Jurys to Attend the Court at several times, As is constantly done by the best Ordered Courts of the Nation, And they may Attend as short a Time as shall be desired, tho' the Courts be ever so long.

2ly. The Business of Boston, they say, is very different from that of the Country, whereby Cases may be determined wrong for want of Understanding, particularly of Charter-partys and other Affairs of Trade.

But this seems to be a very indigested Reason, For All these Actions are Transitory and may be laid in any County; And therefore by Dividing the County, Ill designing Men Shall have an Advantage to Carry their Actions into the dark, when they please, And by a special Provision and Establishment of Law.

Wherefore, We are Humbly of Opinion ——— It will always best Serve the Intentions of Justice to have Jurys composed of Men of Probity, and good Understanding, Capable to receive, and digest the Arguments of the several Councils, And particular Observations of the Judges upon the whole, And withal Severally Acquainted with the several Affairs that may come before them, That they may Assist and Aid One another, in every Matter to be Tryed by them.

Wherefore, Upon the whole the Inhabitants of Boston are Humbly of Opinion, That it is not for the Wealth, and Welfare of the People to have [177.] This County divided ——— And therefore Pray it may not.

Humbly Presented to the Town by Us of the Committee for that Purpose.

The Town being Assembled ———

Capt. Nathanael Cunningham from the Committee appointed the 29th of Dec. last past, to Draw up A Memorial, or Petition to the General Court, relating to the heavy Tax laid on the Town, Presented the same, Which was Read ——— And is as follows, Viz^{t}.

[180.] To His Excellency Jonathan Belcher Esq^{r} Captain General and Governour in Chief The Honourable the Council and the Hon^{ble} House of Representatives of His Majesty's Province of the Massachusetts Bay in New England, in General Court Assembled, the first day of January 1735.

The Petition of His Majesty's Liege Subjects, the Inhabitants of the Town of Boston.

Humbly Sheweth,

That Whereas the very heavy and almost insupportable Province Tax which has been laid upon the Inhabitants of said Town of Boston for some years past, have been so great and burdensom, that They have not been able, without the Utmost difficulty to discharge the same.

Wherefore Your Petitioners most Humbly beg leave to lay before Your Excellency and Honours the deplorable Estate of said Town, And in Order to expose the miserable Circumstances thereof to Your Excellency and Honours View, they beg leave to Observe

I. The Great decay of Our Trade in General Which is very

obvious from the great Declension of the principal and most valuable branches thereof for many years past, which branches made this Town appear with a different face to what it does at present, And as the Encouragement of these Branches were our great advantage, So We really find by unhappy experience, the Discouragement of them to be very Distressing, And We Apprehend will be more so, Unless Your Excellency and Honours shall be Able, in Your great Wisdom to find out some Relief to make up to Us the deplorable loss.

[181.] We would now beg leave to Observe upon the Branches of Our Trade, refer'd to ———

1. Our Distillery, which was for many Years a most flourishing Trade in the Town, And maintain'd not only abundance of People, but likewise abundance of Vessels in carrying off large quantities of Our Country Produce and in lieu thereof making Returns in Molasses, and that in Our own Vessels, at moderate prices, by which means We were enabled to Export very large quantities of Rum to almost all parts of British America, more especially to Newfoundland, Which gave Us opportunity to make large Remittances to London, which help'd us in a great Measure to discharge great part of the Debt Owing from this Province to Ballance their Trade to that City &c., Not only so, but all our Naval Stores from North Carolina, and Cargoes of Rice and other Merchandizes from South Carolina, as well as most of Our Grain, Flour, and many other Commodities from Other places We receiv'd in lieu of, or exchange for Rum of Our Own Distilling: But the Act of Parliament laying such Duties upon Foreign Molasses imported into His Majesty's Plantations, Hath put it out of the power of Our Trade to import any Mollasses upon such terms, which has been the means of lessening the Distillery of this Town at least One half, So that Whereas this Town and Province before the Act might reasonably have been allow'd to gain many Thousand Pounds p Annum by the Distillery, They do not now more than maintain themselves.

2. Our Cod Fishery, which for many Years past have Employ'd abundance of Men and Vessels, and enabled the Town to carry on a very great Trade, by supplying all sorts of necessarys for carrying on catching and curing and exporting the same, is become so heavy an Article, both in Europe and West Indies, the price being so very low, Occasion'd by the French, who not only catch vast quantities, but cure it much better than We do, And the cheapness of their Labour and Materials for catching and curing the same, Enable them to undersell us at most of the Markets in Europe, by which means the Fish here does not bear a price Sufficient to discharge the Cost in catching and curing, And at [182.] Present remains under such discouragement, that it's much to be feared that there will not be, the Year ensuing, near Two Thirds, of the Fishery kept up, as has been carried on for many Years past ——— And as this Valuable Trade lessens, the Trade of Boston must necesarily lessen in proportion.

3. Our whole Trade to the West Indies and back to this Port is reduced to so low an Ebb, and that without any visible pros-

pects of it's ever flowing again, that it labours under the Utmost discouragement, For it's generally Allow'd, that Our whole Trade thither and directly back to Boston upon an Average does not discharge the first Outsets, And nothing saves that Trade from utter Ruin, but Freights from thence to London, and that seldom to be depended upon, And even that is so small an Advantage that it's much to be feared the Generous Adventurers will soon be Obliged to lay aside their Trade and Navigation and save some part, before their whole Interest be utterly lost, Unless they can Receive such Publick Encouragement, as will induce them to continue the same.

4. The Trade to London, tho' it's Our Duty to Contribute All in Our Power toward the Wealth and Grandeur of Our Mother Country, Yet what We receive cheifly from thence serves in a great measure to expose our Inhabitants to censure and extraordinary Taxes, for the abundance of European Goods sent over hither, from the Nature of Our Trade exposes the Inhabitants to appear in extravagant Garbs, Who would gladly avoid the same, were they to receive Money in lieu of their Labour, Manufacture and Trades: But inasmuch as they cannot be paid but by Notes to Shops which cannot be avoided, tho' allow'd to be very pernicious, And altho' very great quantities of extravagant, unnecessary European Goods are imported yet they contribute nothing toward the Support of the Publick Charges: But the most part thereof are Owned by Merchants in London [**183.**] And consigned to their own Factors here, and no advantage reaped by them, but by the Ship-builders and a few Tradesmen, Whereas We Apprehend this Town is Taxed as tho' said Goods were Owned by the immediate Possessors, but in Truth all We get by them is the Commissions, and very often much less, after the Returns are made Our Trades-Men of all denominations (Except the Ship-builders, and that only this present year) having very little Employment, and yet very heavily Taxed and are under the utmost discouragements, the want of Money without which no Country can possibly subsist, is so scarce and hardly to be Obtain'd, that there is not One half sufficient to carry on the Trade of the Province &c. We Humbly Apprehend, Unless Your Excellency and Honours afford us Relief, and out some means to Ease Us of Our Taxes. which We are not able to pay, And Encourage the decaying Trade of this Province, We have great Reason to fear, a very few years will reduce this Town to the greatest distress and misery.

II. We would further beg leave, Humbly to Observe in a particular Manner the many instances in which this Town is Exposed to Publick Charges, and altho' several of them are not immediately Provincial, yet they are so many and so great as renders them less able to pay the whole.

1. The Maintenance of the Poor of the Town is a very great and growing Charge. ——— For Whereas in the Years, 1728, 1729, the Charge was but Nine Hundred Forty four Pounds each Year, it amounted in the Year 1734, to Two Thousand Sixty Nine Pounds, Ten Shillings for the Poor of the Almshouse and others

Supported at the Publick Charge. There was then Eighty Eight Persons in the Almshouse, and but One Third part of them Town born Children, So that Two Thirds of the Charge is One Thousand Three Hundred Seventy Nine Pounds, Thirteen Shillings, and Four pence for Poor Persons who are crept in amongst Us, And which We doubt not, Your Excellency and Honours will have [184.] Due Consideration of, And that the Burden may, As We apprehend it ought to be proportionably born by the Province. And We would further Observe that the Additional Number of the Town Inhabitants is chiefly Owing to the resort of all sorts of poor People, which instead of Adding to the wealth of the Town, serve only as a Burden and continual Charge, and which is as frequently complain'd of by the Inhabitants, but without having it in their Power to repell or prevent the growing Evil. For We Apprehend it cannot be concluded against Boston, that they ought to be Assessed according to the additional Numbers of her Inhabitants, Unless their Additional Number brought with them an equivalent proportion. of Wealth to support the Charge, which is evident they do not, by the Encrease of the Numbers abated their Rates annually, And it is Observable that many Inhabitants of good Circumstances are gone out from Us, And many indigent Poor have fill'd the vacancy, and encreas'd our Polls.

2. The Watch of the Town of Boston is a very great Charge ——— Amounting to no less than Twelve Hundred Pounds p Annum, Which great Charge is not only very Serviceable to the Town, but likewise to the Province, by reason this Watch is a very great Security to all Merchandize imported belonging to many other Persons at Home and in Foreign parts, as well as all the Produce brought from the Country, and belonging to the Inhabitants thereof, as well as all Vessels continually Trading hither from Other Ports.

3. The Support of the Ministry of the Town, by a moderate Computation amounts to Eight Thousand Pounds p. Annum.

4. The Other Charges of the Town above what has been already Noted is, Four Thousand Six Hundred and Thirty Pounds p. Annum, Besides Our Proportion of the County Charge this year is One Thousand Six Hundred Eighty Two Pounds, [185.] Nineteen Shillings and Two pence, the whole amounting to the Sum of

5. The Impost was Originally designed for to maintain the Province Galley, and altho' that Cause was removed many Years past, Yet the Effect still remains, which is a very great Burden to the Mercantile part of the Province, but more especially to the Town of Boston, considering the additional Tax of Fourteen Hundred Pounds this Year. It is frequently Objected that altho' Merchants originally pay an Impost, Yet they are fully repaid by the Consumer. ——— Altho' that Argument may possibly Subsist as to the part of such Goods as are consumed here, Yet We humbly Apprehend there is no Argument for Retaining the Impost upon such Goods as are re-exported, and which is a very great Burden upon the Importer, For, all such Goods in London imported, upon which there is a Duty, there is a Drawback, pro-

vided Such Goods are re-exported in a limited time, But here, there is no provision made, Unless the Goods are not landed, and exported in the same bottom, which is a very great hardship upon the Importers, by reason a very great part of such Goods are re-exported by the Original Importers, and others, And therefore We cannot but hope We shall meet with such Relief As the Nature and Justice of this Observation calls for.

6. The Bounty upon Hemp and Flax will, As We Apprehend, Amount to a very large sum Annually, And Altho' it will be a General Good to the whole Province, yet very far from being any immediate Advantage to the Town of Boston ——— For as it is raised in the Country, So they may Manufacture it there if they please, nay carry it into any other Government, and still receive the Bounty, When at the same time Boston pays agreeable to our proportion of the Province Tax in times past, Above One Sixth part, which is like to be a very heavy Article, but more Especially inasmuch as the same is to be paid in Money by a Tax upon her Inhabitants, Whereas they cannot possibly conceive how they can obtain the money to pay it with. For the unhappy situation of Our Affairs, especially in respect of Money, fills every Ones mind with the fears of very terrible consequences.

[186.] Wherefore, We Humbly Apprehend, That We cannot possibly set the present distressing Circumstances of the Inhabitants of this Town in a clearer Light than by Acquainting Your Excellency and Honours of the Report made to a Committee appointed by the Town, by the Collectors of the Publick Rates and Taxes, ——— Which Stands thus, ——

1735. Capt. Daniel Pecker to Collect, Six Thousand Six Hundred Pounds; to pay in One Half by the 10th of January current, Or liable to an Execution. And yet has not been able to Collect more than Two Hundred an Ten Pounds, ——— There remains due Six Thousand Three Hundred and Ninety Pounds.

Mr. Nathanael Barber to Collect, Two Thousand Six Hundred Pounds; to pay in One half by the aforesaid, 10th January, otherwise liable to an Execution, has not been able to Collect more than One Hundred and Eighty Pounds ——— There remains due, Two Thousand Four Hundred and Twenty Pounds.

Dr. William Rand to Collect, Seven Thousand and Sixteen Pounds; and to pay One Half by the 10th January, or liable to an Execution, has not been able to Collect more than the Sum of, Five Hundred and Twenty Six Pounds, ——— There remains due, Six Thousand Four Hundred and Ninety Pounds ——

And the aforesaid Collectors say, the general Complaint is by the Inhabitants, that they are Over Taxed very much, in the Province Tax, in proportion to other Towns, and have not Money Neither know they where to get it, and the Collectors further Add, That they have no prospect of being able to Collect the respective Sums allotted to them Unless they distrain upon the Goods and Chattels of the Inhabitants.

Wherefore Your Petitioners Humbly Pray Your Excellency and Honours would be Pleased to take their distressed Circumstances into Your most Wise and Serious Consideration, And make Us

Such Abatements upon the Taxes laid Upon Us the Year past, and Reduce future Taxes to such moderate [187.] Sums, as that it may be in the Power of Your Petitioners chearfully to pay, And as in Your Great Wisdom You shall adjudge most just and equal. And Your Petitioners, as in Duty bound, Shall Ever Pray, &c.——

Voted, That Capt. Nathanael Cunningham,
Mr. Hugh Vans,
Mr. Samuel Waldo,
Mr. Cornelius Waldo, and
Mr. James Pierpoint,

be a Committee for the End aforesaid——— Who are Desired to Prepare Instructions accordingly, And lay them before the Town, at the Adjournment of this Present Meeting, for their Consideration.

The Committee Appointed the 11 March last, To Consider of, and project some Method for the better and more Effectual Watching the Town of Boston, Presented Their Report——— Which was Read And is as follows, Vizt.

The Committee to whom was Referred, (at the Annual Meeting in March last) the Consideration of some Method for the better and more Effectual Watching the Town of Boston, and the Easing the Inhabitants of Considerable part of the Charge in maintaining the same &c — Report as follows,

That We have taken into Consideration, the various methods of

Watching herefore known and practis'd in the Town, and are of Opinion, That the Method of Maintaining a Watch by a Tax on the Inhabitants and Residents of the Town, is most Agreable to Justice, and best Calculated for the Ease and safety thereof, if under a due and proper Regulation.

And for that Purpose, We would Propose,

1. That there be only Four Watch-Houses maintained at the Charge of the Town; Viz^{t}. The Watch House at [**214.**] The South End, near Mr. Eliot's; The Watch House at the Town House; The Watch House at the Dockhead; And One to the Northward of the Mill Creek, which We propose should stand at the South East Corner of Bennet-Street (on the Land of James Bowdoin Esq^{r}. Who is very willing to gratify the Town in that respect, the Town only paying him some small Acknowlegement for the same: But if the Town should disapprove thereof, then We propose, that the Watch be kept at the House near the Old North Meeting House, as heretofore; and that the Town be at no further Charge towards the Support of any other Watch House. And to Prevent any disadvantage that may Arise from discontinuing the other Watch Houses, it is propos'd, That the South Watch (in their Rounds) inspect that District which belong'd to the Watch at the Neck ——— That the Watch at the Town-House inspect the Long Wharf ——— That the Watch at the Dock-Head inspect the Dock, with the Streets and Lanes to the Southward of the Mill-Creek, formerly under the Care of the North Watch ——— And that the North Watch take the inspection of all that part of the Town to the Northward of the Mill-Creek, to be divided into Two Wards, to be Visited by the Watch-men in turns.

2. That there be Four Sober, able bodied Persons appointed for Each Watch House, And that One of the most discreet of their Number, be Appointed to take the Charge of the Watch, Who, as a Badge of his Office shall be Obliged to Carry a Quarter Pike, And the Others to carry a Staff with a Bill, as the Law directs.

3. That there be Written Orders and Directions, given by the Select Men of the Town, to the Watch Men, to be hung Up in Each Watch House, describing their Wards, with their Duty, Power, &c. ——

[**215.**] And for the more effectual Answering the designed Ends, it is proposed ———

(1) That the several Watchmen be at their respective Watch-Houses by Ten O'Clock, and to continue there in the morning till broad Day-Light.

(2.) That immediately after Ten O'Clock, there be, (at least Three Times every Week) Two persons sent out from Each Watch House to Walk the Streets, Lanes &c. in Order to take up all Negro and Molatto Servants, that shall be unseasonably Absent from their Masters Families, without giving a sufficient reason therefor.

(3.) That at Twelve O'Clock Two Persons from Each Watch-House set out to Walk the Rounds (which may be varied as shall be judged proper) in and about the Inhabited Streets Lanes, and

Wharfs within their several Wards: And that within half an hour after their coming in, the Other Two shall go out, and so by turns, till the Dawn of the Day, and that they be Obliged to Attend this duty, in rainy and stormy, as well as fair weather. And further, That during the whole Night, One or Other of the Watch-men shall stand at the Watch-House Door, to Examin All Passers-by, And if they cannot give a good Account of themselves, to secure them as the Law directs.

4. That there be One Capable Person appointed as an Inspector of the several Watch Houses, Who shall be Obliged to Visit each Watch House, at least Three Times every Week, And keep A written Memorandum of All Deficiencies, Which he shall lay before the Select Men, every Month before the Watch-Men are paid off, that so in case of any Neglect, A proper sum may be deducted out of the Delinquents Wages, Or he be dismist, As the Select Men shall think proper. And inasmuch as Several Orders of Officers within the Town, do frequently Walk in the Night, and among other things, Visit the Watch Houses, We would hope the Inspection of the Watch would hereby be Sufficiently provided for.

[216.] (5.) That inasmuch as by this method the Watch-Mens Work will be considerably increased, It is Proposed, That Each Mans Wages be raised to Fifty Pounds p Annum, And that the Inspector be paid the same Sum, Which We would hope, would be a sufficient Encouragement to Industry and Faithfulness in the Discharge of their respective Duties.

Now, upon this Method We would beg leave to Observe, That inasmuch as hereby the Watch Men would be Obliged to Walk their Rounds in Stormy and Rainy Weather, And the Latter part of the Night, which Ordinarily now they do not after Two O'Clock ——— The Town would be much better Watch'd than now it is; And besides, there would be an Abatement of the Expence About Three Hundred and Eighty Pounds p Annum.

Which will Appear from the following Calculation, Viz^{t}.

16 Watchmen, at £50 p Annum,	£800	"	-	"	- -
1 Inspector - - - - - - - - -	50	"	-	"	- -
Candles 10^{s} p Month for the 4 Watch Houses - - -	24	"	-	"	- -
Coals £4 p year for Each House -	16	"	-	"	- -
	£890	"	-	"	- -
Which Sum being deducted from ———	£1268	"	-3	"	- 4
the Charge of the last year will leave	£378	"	-3	"	- 4

which the Town will save in its Annual Expences;

All which is Humbly Submitted to the Consideration of the Town ———

Pursuant to a Vote of the Town as above ——— We the Subscribers have accordingly Attended that service; Have Viewed the Street mentioned in the Petition referr'd to; Considered the Prayer of the Petitioners; And Report thereon as follows, Vizt.

That the ancient High Way, which was to be maintained in good Repair of Fifty feet in Breadth, be now reduced to the Breadth of Thirty five feet, Which We apprehend will well Accomodate the Inhabitants, and Sufficiently Answer all the Ends of A Street

——— And Therefore, that the said Street be fixed and established by the Town to be Thirty-five feet in breadth; And that the same be maintained and kept in good Repair, Open free and Unincumbred, at the proper Cost and Charge of the Proprietors and Abutters on said Street, for the Use of the Town of Boston forever. ——— All which is Humbly Submitted By, John Jeffries, Jon^{a}. Armitage, Alex^{a}. Forsyth, John Eastwicke, Jonas Clarke, Select Men ——— Boston May, 19. 1736.

The Select Men being Desired to make Enquiry into the state of the Gun House, and to Report thereon, As Entred Apr. 28 ——— Reported.

That They had According to the Desire of the Town, made Enquiry into the State and Circumstances of the Gun House in the Common, and considered thereof; And that They find it was Built by Order of, and at the Cost and Charge of the Town of Boston, in the year 1712, in Order to House some Field Carriages, which are now in it. That They are of Opinion ——— That the said Gun House with some Repairs, may well serve to hold the said Carriages still, and also for Keeping the Bulls, with Hay sufficient for them. ———

Voted, That this Report be Accepted. ———

Capt. Cunningham from the Committee Chosen and Appointed the 28th. April, last, to Prepare Instructions for the Representatives, Presented the same to the Town for their Consideration, ———Which were Read ——— And,

Upon a Motion made and Seconded, Viz^{t}. ———

That in consideration of the Importance of the Instructions to the Representatives, Now presented by the Committee as Above, And the Smallness of the Number of Inhabitants now Assembled, The following Question was put, Viz^{t}. Whether it be the mind of the Town, That this Meeting Shall be Adjourned to Monday Next at Five O'Clock Afternoon — And That the Select Men be desired to take Care That the Inhabitants be duly Notified of the said Adjournment, in Such Manner as They shall think best.

Voted, In the Affirmative.

Mr. Cushing from the Committee Appointed Dec. 29. 1735. To Examin into the State of the Long Wharf ——— &c. Presented their Report. ——— Which was Read ——— as follows, Viz^{t}.

[222.] The Committee Appointed the 29th Dec. last to Examin into the State of the Long Wharf, and make due Enquiry, Whether or no, the Right of the Inhabitants of this Town relating to the same has not been Violated, And to make Report thereon, Have Attended that Service ——— And upon a thorough Perusal and mature Consideration of the Grant of the Flats, made to the Proprietors of the Long Wharf, together with the Covenants & Engagements which said Proprietors made with the Town in that Affair ——— We find ———

That in the Year 1710, It was Covenanted and Agreed between the Town, And the Original Undertakers or Proprietors of the Long Wharf, in Manner following Viz^{t}. That the Proprietors should have full Liberty to Erect & Build a Good and Sufficient

Wharf, of the breadth of King Street, from the End of said Street as it then was on a direct Line to low Water Mark, And the Waste Ground or Flats of that wedth and length were Accordingly Granted and Released to them, without Prejudice to former Grants. ———

In Consideration whereof, the Undertakers or Proprietors were Obliged at their Own Cost and Charge to Erect, Build, Maintain and keep in good Repair, Said Wharf, Always leaving the breadth of Thirty feet On one side of the said Wharf, Unincumber'd for an Open and free High Way forever to the Use of the Town and Others; And that the End of the said Wharf Should be free for the service of the Town, when they should see Reason to Plant Guns thereon for their Defence.

It was also Covenanted and Agreed, That no Wharf beyond the Circular Line Should be permitted or Suffered to Join or be forever built nearer than Sixty feet of the Waste or Flats then Granted. ———

These, We Apprehend the Essential Parts of the Grant on the Town's part, And also of the Covenant on the part of the Proprietors. ———

[**223.**] As to the Performance of Conditions, We would Observe ——— That We can't discover but that the Town have punctually Performed all that has been ever Promised and Engaged in their behalf to the said Proprietors, Nor can We find that Ever the Proprietors have been disturbed or disrested, but that they have allways been in the quiet and peaceable Possession and Improvement of all that was ever Granted them; But as to Performance on the Proprietors part ——— We find.

1. That the Thirty feet left as an High Way on the Southerly Side of said Wharf has not commonly been, neither at this time is so free and Unincumbered as it reasonably ought to be for an High Way for the Inhabitants and Others, pursuant to the Original Contract; And what seems very Extraordinary is, that Notwithstanding it was expressly Stipulated, that it should remain forever As an Open and free High Way without any reservation peculiar to the Proprietors, Yet they constantly demand and Exact Wharfidge for all Goods landed there from on board Foreign Vessels, tho' they belong to our own Inhabitants, Which We Apprehend to be a Violation of the Contract and a manifest Infraction upon the Right of the Inhabitants.

2. That the End of the Wharf is not free according to Contract, but incumbered with a Crane House Erected there, neither is that part of the Wharf in any tolerable Condition suitable for Planting a Line of Guns, as it ought ever to be. ———

3. We find that several Proprietors of the Long Wharf have made Encroachments on the North side of said Wharf, where Platforms, and also a Wharf are built, and additions made to their Houses beyond the Circular Line, which is an Evident Violation of the forementioned Covenant made between the Town and Proprietors.

Upon the Whole, We are humbly of Opinion, That the Select Men for the time being be desired to take care That the said

Thirty feet High Way on the Long Wharf be kept [224.] Unincumbred in such manner as it ought to be, and that it be kept in Repair at the Charge of the Proprietors of said Wharf.

And Furthermore, We Apprehend it very needful, that the Right of the Inhabitants as to a free Wharfage of their Goods be speedily Asserted and Defended, At the Charge of the Town. ——

[225.] The Report of A Committee, to Prepare Instructions for the Representatives. laid before the Town for Consideration, At their Adjournment the 21st. instant —— Read again; and is as follows.

At a Publick Town Meeting at Boston, upon Wednesday, the 28th. April, 1736.

Messieurs Nathanael Cunningham, Hugh Vans, Samuel Waldo, Cornelius Waldo, and James Peirpoint ——— Were Chosen a Committee to Prepare Instructions for the Representatives, and lay them before the Town for their Approbation at the Adjournment upon Fryday the 21st. May next Ensuing,

Presented as follows, Viz^{t}.

To the Honourable Elisha Cooke Esq^{r}. Messieurs Oxenbridge Thacher, Thomas Cushing, and Timothy Prout.

Gentlemen

We the Freeholders and other Inhabitants of the Town of Boston duly Qualified and Regularly Assembled ——— Cannot manifest Our great Esteem and Regard for you, in a more peculiar Manner than We have done, by Chusing You again, to Appear as Our Agents and Representatives in the Great and General Court of this Province for the Year Ensuing.

And Whereas this Province in General (as well as this Town in particular) Labours under the greatest Hardships, Difficulties and Distresses upon many Accounts, without any signal Prospect of Relief. ———

And Altho' We do not in the least Question Your Faithfulness to the true Interest of this Province in general as well as the Trade and Business of this Town in particular ——— Yet Esteeming it Our Duty [226.] In this unhappy Juncture, Wherein (As We Apprehend) Our Laws, Liberties and Properties are in Danger, Earnestly to Request of You ——— To Exert all Your Powers, in Conjunction with the Other Worthy Members of the Honourable House of Representatives, to Guard Against, and Defend Us from, All Encroachments that may be Attempted Against Our Natural Rights, Or Charter Privileges. ——— And, That it may not be Objected to You by any Persons whatsoever, that You do not Act agreeable to the Mind of Your Principals, upon several Important Heads, We wou'd in a more Especial Manner Earnestly Recommend to You. ———

1st. That Inasmuch as We Apprehend Our Selves grievously Oppress'd by a very large and disproportionable part of the Province Tax ——— laid upon Us from Time to Time for several Years past, Compared with the Proportions paid by the Other Towns within this Province ——— We Therefore Earnestly Recommend to you, the most diligent Search, and strict Enquiry, into the Rules by which such Proportions have been Ascertained That by Comparing the Province Tax paid by Gentlemen of Estate in the Countrey Towns, with Other Gentlemen of like Estate in the Town of Boston; there may be such Regulations as that Every Town may pay such a proportion as to Justice and Equity Appertains.

2ly. Whereas the King's Instruction to the Governour of this Province ———

Vizt.

The XVIth. Instruction Directs and Enjoins the Governour, Not to Assent to any Act ——— Whereby Bills of Credit may be struck or Issued in Lieu of Money, for above the Sum of Thirty Thousand Pounds p Annum, And [227.] That no more than Thirty Thousand Pounds of such Bills be ever Current at One and the same time. ———

The XVIIIth. Instruction Directs, That Whereas several Bills of Credit to a Considerable Value are standing out upon the foot of certain Acts heretofore Passed for that purpose, Whereby particular Funds are Provided for Calling in and Sinking them, The Governor is thereby Directed to Call in all such the said Bills According to the Periods and Provisions of the respective Acts by which they were Issued. ———

And Whereas We Apprehend the Distressing Circumstances of this Province in many Respects (And for a more particular Account thereof, We refer You to the Memorial preferr'd by Us to the Great and General Court of this Province, at their Session in January last) Renders the Complying with the said Instruction altogether Impracticable, if not Impossible, ———

We therefore Injoin You to Use Your Utmost Power and Influence to prevent the Passing of any Act in the General Assembly for the Raising any Sums of Money by a Tax upon the Inhabitants of the Province, Unless such Act, put the Payment of said

Taxes upon such Years as may (Consistent with a rational probability) Capacitate and Enable them to discharge the same.

3ly. Whereas, Large Sums of Money have been Granted for His Majesty's Service by former Assemblys, And notwithstanding Such Grants have been Guarded with particular Appropriations, Yet such Cautions have not been Attended with their Expected or Desired Success: But We have great reason to Believe, that such Sums so Appropriated have been Misapplied, Which Renders the Property of His Majestys good Subjects of this Province very precarious, and exposed to Numberless inconveniences. For Remedying whereof, We Earnestly Recommend to You A strict Inquiry into the state of the Treasury; And that You would Use all proper means to Acquaint [228.] Yourselves with what Misapplications have been made of the Public Moneys in Time past, And Guard Against any such Impositions for the Future. ———

All which is Humbly Submitted By

To the Inhabitants of the Town of Boston at their Adjournment this 21. May, 1736.

That. there are but Two Ways (considering the present Circumstances of the Town) Whereby the said Grant may be Improved to advantage,

First, By Granting a Part of the said Lands to any suitable and sufficient Person, or Number of Persons, Who shall Oblige themselves under such Penalty, and in such Manner as shall be agreed on, to bring forward the Settlement of the same, within the Time limited by the General Court, and agreeable to the conditions of their said Grant to the Town ——— The Residue of the said Lands to continue and remain to be hereafter disposed of by the Town, at such Time and in such Manner, as they shall Determine.

} Select Men.

Voted, That this Report be Accepted, and that the Petition be accordingly dismist.

The Reports of the Select Men on the several Petitions for Paving, were Read, and are as follows Viz^t.

Pursuant to the Vote and Desire of the Town, at their Annual Meeting the 14th. of March, last———

We the Subscribers have Attended the Service Desired of us; Taken the Petitions for Paving referr'd to, under Consideration; View'd and Measured the several Streets; Computed the Charge of Paving them; and Report thereon, as follows, ———

First, On the Petition for Paving Wood Lane, &c. ———

Having View'd and Measured the said Lane, We find it measures about 395 Yards, the Paving whereof will cost, £73 11 16 11 3. And We humbly Apprehend, It may be Adviseable that the said Lane be Paved anew, The Town bearing One Third part of the Charge, Provided the Abutters be at the Cost and Charge of the Remaining Two Thirds, and keep the same in repair from time to time: And further It is our Opinion That the Petitioners have Liberty at their own Charge to Build an Open Wharf a Cross the Town Slip, to lye Open for the Use of the Inhabitants of the Town of Boston, about Eighty or an Hundred feet below the High Way, As the Town shall direct.

[264.] Secondly, On the Petition for Paving Beer Lane.

Having View'd the Said Lane, &c. We find it Measures about 504 Yards, and that the Cost of Paving the same will amount to upwards of £100. And Whereas We find the said Lane lyes upon a good Descent, and that the Passing therein is more Commodious than many other of the Town ——— We are therefore of Opinion, it may not be adviseable for the Town to be at Charges in Paving the same, for the present. ———

Thirdly, On the Petition for Paving Love Street.

Having View'd the said Street &c. We find it Measures about

630 Yards, And that the Cost of Paving the same will amount to upwards of £149. But, inasmuch as the said Lane is little Improved in Comparison with others in the Town, ——— We are Of Opinion the Paving thereof may be deferr'd for the present. ———

Fourthly, On the Petition for Paving Green Lane.

Having View'd the said Lane, &c. We find it Measures about 2600 Yards, the Paving whereof will cost at the least £650. And Whereas, it does not Appear to us, that the Abutters thereon have fully determined to Pave their Respective parts or proportion thereof; And the Boundarys of the Land of some of the said Abutters, rendering the said Street or Lane irregular ——— We are of Opinion, That in Consideration of the Premisses, together with the heavy Charge it will be to the Inhabitants, It may be adviseable to defer the Pavement of the said Lane for the present.

Fifthly, On the Petition for Paving part of Orange Street.

Having taken the said Petition under Consideration, [**265.**] View'd the Said Street, and finding the Southerly half thereof to be very much out of Repair; We are of Opinion, It may be Adviseable for the Town to Expend Three

viseable for the Town to Expend Three Hundred and Fifty Pounds in Paving the same: Which Sum, We find by Computation, will pay the Towns part of Paving, 1600 Yards thereof —— Upon this Condition, That some sufficient Person or Persons shall Appear to Engage for and in behalf of the Proprietors and Abutters on the said Street, bearing their proportionable part of Paving the same.

All which is Humbly Submitted, &c. —

April, 29, 1737. JOHN JEFFRIES, JONATHAN ARMITAGE, ALEXANDER FORSYTH, CALEB LYMAN, JONAS CLARKE, THOMAS HUTCHINSON Junr. } Select Men.

Voted, That the Report of the Select Men upon the Petition for Paving Beer Lane, be Accepted.

Voted, That the Report of the Select Men upon the Petition for Paving Love Street, be Accepted.

Voted, That the Report of the Select Men upon the Petition for Paving Green Lane, be not Accepted. And,

Upon a Motion made by Capt. James Gooch junr. as follows Vizt. In Consideration of the foregoing Proposal —

Voted, That Green Lane be accordingly Paved, The Abutters and Proprietors of Land in said Lane Advanceing the Money, and defraying the whole Charge thereof, for the Present; And that the Town Repay their proportionable part of said Charge, within Three Years next after the Work shall be compleated; Viz^{t}. One Third part thereof, in the Year 1738; One Third more, in the Year 1739; and the remaining Third part, in the Year 1740. Upon this further Condition also, That the said Street or Lane be first reduced & put into a regular form, And upon no other Conditions whatsoever.

Voted, That the Report of the Select Men, upon the Petition for Paving Orange Street, be Accepted. And that the said Street be Paved agreeable to the said Report —— Upon this Condition Nevertheless —— That the original Grantees of the Beech, Flats and Meadow Ground On Each side of said Street, Or their Successors the present Owners or Proprietors thereof, Do well and faithfully Secure the said High Way from being Damnified by the Tides, continuing the same of the full breadth of Forty Eight feet, And Perform all and singular their Engagements Mentioned in their Grant, As the same is Entred in the Records of Boston, March the 8th. 1707/8. Lib. 2. Fol. 291. And that the Other Proprietors or Abutters on said Street bear their proportionable part of the Charge of Paving the same, according to Custom.

A petition of Mr. Zachariah Hicks, Usher of the North Writing School; Praying for some Addition to his Salary, for Reasons mentioned —— Read,

[**267.**] Upon Information and Complaint of frequent and Notorious Abuses in the Measure and Sale of Cord Wood within this Town, In Consideration thereof,

Voted, That it be recommended to the Select Men, Who are hereby Earnestly Desired to take Effectual Care to prevent such Abuses for the future, by endeavouring that the Laws already in that Case provided be duly put in execution.

The Report of the Select Men to whom was referr'd the Consideration of the Desire of sundry Inhabitants, That the Markets might be Appropriated to some other uses —— As Entred the 5th. April last past, Read, As follows, Viz^{t}.

Pursuant to the Vote and Desire of the Town, as above, We the Subscribers have attended that Service, And Accordingly Report, as follows, ——

First, as to the South Market ——

That Whereas Improving the said Market by turning it into Shops, may be most for the Interest of the Town, We are of Opinion It may be Adviseable for the Town to let it out, during the Time of their Lease therein, to such Person or Persons as may Appear to Hire it for that End. ——

Secondly, As to the North Market ——

We Apprehend it can't conveniently be Improved to any other use, in the Place where it now stands, than by turning it into Shops; But Inasmuch as that would greatly incommode, and might prove, on several Accounts Inconvenient, Not only to the Neighbourhood, but also to One of the Public Meeting Houses for the Worship of God, which stands very near to it, We can't think it adviseable to do it but rather, that the said Building be Removed to some more convenient Place, and Converted to such Other Use as the Town shall think fit.

All which is Humbly Submitted &c.

Apr. 29. 1737. JOHN JEFFRIES, CALEB LYMAN, JONATHAN ARMITAGE, JONAS CLARKE, ALEXANDER FORSYTH, THOMAS HUTCHINSON Junr. } Select Men.

[268.] Voted, That this Meeting be Adjourned 'till Three O'Clock in the Afternoon.

Afternoon, The Town being Assembled.

The Report of the Select Men, On the Petition for Appropriating the Markets to some Other Uses ——

Read again —— And,

Upon the Desire of Mr. John Staniford, that the By-Law respecting setting up the Markets might be read, it was accordingly done —— Whereupon the said Staniford proceeded to cast very indecent Reflections upon the Select Men, (as he had also done in the Forenoon) On Account of their Report, As Agreeing with the Mob, who had pull'd down the Market on the Dock ——— For which he was Reprimanded by the Moderator ——— But continuing His Reproachful Speeches, not only against the Select Men, but the Town in general; The Moderator again Commanded him to keep silence as to that matter, and not to hinder the Public Business, Or he would punish him for his Offence as the Law directs, withal telling him that his Reflections were very injurious and abusive —— The said Staniford told the Moderator That he only was of that Opinion, and insisted upon it, that what he had said was true, and it was his Right to speak, the Town having not Ordered otherwise.

Upon which the Moderator propos'd as follows,

You, that are of the mind that Mr. Staniford has several times very indecently and injuriously Reflected on the Select Men, and not only on them, but on the whole Town, And Therefore, that the Moderator Command him to keep Silence, and say no more of that matter, And upon his refusal the Law be put in Execution against him, And he be sent out of the Meeting by the Hands of a Constable,

John Read Esquire from the Committee Appointed the Twenty first Currant to Draw up an address to the Great and General Court, for Relief, respecting the extraordinary Charge of the Town of Boston, in the Pay of the Members of the Honourable House of Representatives, Reported, That They had Drafted An Address to the General Court According to the Direction of the Town —— Which He Read in his place, and then Presented it to the Moderator Which being Read again with Amendments ——

Voted, That the same be Accepted. And is as follows, Viz^{t}.

Province of the Massachusetts Bay, 12th. October, 1737.

To His Excellency Jonathan Belcher Esquire Captain General and Governour in Chief, the Honourable the Council, and House of Representatives in General Court Assembled. [278.]

The Humble Petition of the Inhabitants of the Town of Boston. —

Whereas there is an Order made in the Great and General Court on the Nineteenth of August last for just and good reasons to raise the Allowances of the Members of the Honourable the Council and House of Representatives to be paid out of the Public Treasury: to which there is a clause added, that the Bills so paid out of the Treasury Shall be drawn in again with the other Provincial Debts by Taxes.

Now therefore We most Humbly Pray this last Clause may be alter'd So as plainly to oblige every Town to pay their respective Representatives what shall become due to them by that Act.

And for Reasons, We would Humbly Suggest,

That Otherwise As this Town Now stands charged with One Hundred and Eighty Pounds of every Thousand of the Tax laid upon One Hundred and Forty seven Towns of this Province, and may send but Four Representatives to the General Court where the rest of the Towns may send One and the most of them Two, We shall be Obliged to pay not only Our own Representatives but all the Representatives of two or three Countys besides. Now Whether this be Equitable or not, We humbly Submit to the Judgment of this Honourable Court.

Moreover the Public Laws of the Province, from the first Session

of the first General Court in the Province, by the Act of the Fourth of William and Mary, Chapter Nineteenth, have Obliged the Several Towns, to pay their respective Representatives for their Travel and Attendance [**279.**] At the General Court: And the uninterrupted Practice hath been according to that Law ever since to this day. Now We are humbly of Opinion, that there can be no more forcible Reason urged, than public Laws, and constant Practice, with Universal Consent, from the beginning.

And Lastly, this present General Court, Since last May, in affirmance of the same Reason and Justice as this Province hath always acknowleged and followed, did with their common Consent, by a public Law Enact, That a Tax should be raised upon the several Towns for the Payment of what their respective Representatives should receive for their Travel and Attendance upon the General Court from the beginning of the Session of this Court in May last unto the end of the several Sessions thereof till May next. ——

We are sensible that the Charge We complain of is but small as to the quantum, but Our Case is, We have Two Thousand Nine Hundred and Eighty two People Taxed in our Books, out of whose Rates is abated this Year, Eight Hundred Fifty Nine Pounds, Nineteen Shillings and Five pence most of it whole Rates of poor People not able to pay, Two Hundred and Twenty People more in Our Tax books, whom Our Assessors thought not Rateable for their Poverty, besides many Hundreds more for the same Reason not Entered in those Books at all, Our Town-charges to the Poor this Year amounts to about Four Thousand Pounds, besides all the Contributions of Our Churches and Societys, and Charity of particular Persons, Our other Town Charges above Four Thousand Pounds more, besides the Maintenance of Our Ministers, Province and County Tax. By this means, and as We humbly Apprehend for the extraordinary portion of the Province charge laid upon Us by the Great and General Court Our Rates run so high that several of Our considerable Men pay from One to Three Hundred Pounds Tax in a Year, many that have but a House to live in and Health to follow their Callings are Rated higher than Country Gentlemen that can buy out Twenty such, And this Town that is of so great importance to the Landed as well as Trading Interest of the province is in very pressing difficulties that seem to threaten its ruin. [**280.**] So that if we should not Pray for Relief in this Case, wherein We are burthened in our humble Opinion contrary to plain Reason, Law, and perpetual Practiced We might Justly fear our charges whom time to time be increase: 'till it would be impossible for us to discharge them.

Wherefore We humbly Pray for redress in the Premisses, And Your Excellency's and Honour's Most Humble Petitioners, As in Duty Bound, Shall ever pray.

HUGH VANS
NATH^{L}. CUNNINGHAM.

Voted, That the Select Men be, and hereby are Desired and

Whereas the Town of Boston propose to Erect a Workhouse wherein to Employ the [283.] Idle and indigent belonging to the Town, Which We apprehend a very charitable Undertaking, and like to conduce much to the Public Interest, and good Order thereof (Such Houses having been found very Beneficial in other Countrys) Which House with the necessary Furniture, and some Stock for the Poor to be Employed by, will probably Cost about Three Thousand Five Hundred Pounds; Wherefore to Encourage this Laudable Enterprize, We whose Names are hereunto Subscribed, Promise to pay the several Sums which We have annext to Our respective Names to any Person or Persons appointed by said Town to receive the same, if the Town shall proceed in this Building.

Mr. Cushing from the Committee Appointed the 13th. of March last, to Consider the Petition of Sundry Inhabitants of the District of Rumney Marsh —— Praying to be sett Off from this Town, in Order to their being Incorporated into a Separate and distinct Township —— Presented their Report ——— Which was Read, And is as follows, Vizt.

The Committee Appointed to Consider of the foregoing Petition, have Attended that Service —— And having had a Conference with Sundry of the Principal Petitioners, have heard all they had to Offer in Support [**306.**] Of said Petition ——— And after mature Deliberation had thereon, The Committee are of Opinion —— That as to any inconvenience which either does now, or may hereafter Attend the Petitioners with respect to the Support of their present Minister, Or in Settling and Supporting any others in time to come, It may fully be redressed by their being made a Precinct, when they shall Petition for that purpose and it be Judg'd reasonable.

As to any difficulties the Petitioners Apprehend they are now under, with respect to the School, the due apportioning the Taxes, and their High Ways — The Committee are of Opinion — That the Town may give relief (as they think needful) in a more reasonable Manner than by Voting them Off a distinct Township.

And We are therefore, on the whole, Of Opinion that this Petition be dismiss'd.

All which is humbly Submitted.

To Messieurs Thomas Cushing Jun^r^.
Thomas Hutchinson Jun^r^. John Read, and
Samuel Sewall, Esquires.

Gentlemen,

We the Freeholders, and Other Inhabitants of the Town of Boston, duly qualified and regularly Assembled, Having Chosen You for Our Representatives, to Appear for Us in the Great and General Court of this Province, for the year ensuing;

And Whereas, This Province in general, as well as this Town in particular, labour under the greatest hardships difficulties and distresses upon many Accounts, And which are daily growing and increasing upon Us, without any signal prospect of relief;

And Although in the General You are Intrusted with All Our Powers —— And We cannot but Hope, that You will consult the

General Good of the Province as well as the Particular Advantage of this Town ———

[312.] Yet, Esteeming it Our Duty in this unhappy Juncture of Affairs, to Request of You, to Exert All Your Powers in Conjunction with the other Worthy Members of the Honourable House of Representatives, to Guard against, and Defend Us from All Encroachments that may be Attempted against Our Natural Rights, and Charter Privileges ——— And that it may not be Objected to You by any Person whatever, that You do not Act agreeable to the Mind of Your Principals, upon several importants Heads,

We would in a more especial manner earnestly Recommend to You ———

I. Our Trade, Which labours under Utmost Discouragements by the extremity of low Markets abroad, Our Neighbouring Governments, Especially Rhode Island, who are daily Rivalling of us, in Our Trade and Medium or Paper Currency, And the liberty they have of Importing the Surplussage of all their Commodities, Foreign and Domestick into this Province for Sale at such Easy rates, And Our Excessive Taxes. Add to them Our Impost to be Paid in Silver and Gold, And the many frauds practiced in the Quality, Weight, and Measure of almost all Commodities, either Consumed amongst Us, Or bought up for Foreign Markets. These altogether are such Burthens as are insupportable, And if not rectified, will indanger the Trade of the whole Province; For it is evident beyond Contradiction, That if Rhode Island can make what Paper Bills they please, And Our Hands are tyed, so that We can make none ——— And yet Our Necessities should Oblige Us to take theirs, And part with valuable Commodities, Nay, even Our Lands for them — If we continue to be heavily Taxed, whilst they are free from Taxes, What Advantages are there which they will not have over this Province? They may Purchase it all in a few years, if they go on, and increase in proportion to what they have done in Seven years past. And therefore, In Order [313.] To increase Our Trade, We Apprehend, it will be absolutely Necessary to have a Sufficient Medium, under good Regulations and reject theirs, And to lessen Our Taxes, especially Our Impost. And a further Encouragement to Our Trade will be, to Enact that a Draw-back be allowed upon all Foreign Goods imported, upon which there is a Duty paid, Upon their being re-exported, As is highly reasonable, And the well known Practice of Our Mother Country.

II. And Whereas We Apprehend Ourselves grievously Oppressed by a very large and disproportionable part of the Province Tax laid upon Us for Several Years past, compared with the proportion paid by Other Towns within this Province, and however the proportion may have been heretofore thought reasonable ——— Yet, as all things are liable to mutation, so the Circumstances of this Town of late years are exceedingly Altered, by reason Several Maritime Towns within this Province are continually Rivalling of Us, And have actually Stripped Us of several Valuable Branches of Trade, which must necessarily render Us less able to pay Our wonted Tax, Whilst they are more able, and ought to pay much larger, than they have heretofore done. And Although We have often Com-

plained ——— Yet hitherto have had little or no redress, And as the Scarcity of Bills of Credit, and the Decay of Our Trade and lessening Our Navigation increases upon Us, So Our Taxes ought to be reduced in proportion.

And therefore, We Earnestly Desire You to Scrutinize into the Circumstances, Trade, and Taxes of the Several Towns within this Province, And so Endeavour that Our proportion of the Public Province Tax may be reduced According to Our Circumstances At this Day, compared with Other Towns.

III. Our Bills of Public Credit, which are of the Utmost Concern to the General Interest of this Province, As well as the Trading Towns in particular — And as the distressing Circumstances of this Province [**314.**] Are increasing upon Us in proportion to their being called in and destroyed, without sutable Provision being made for somewhat to pass as a Medium in lieu thereof, So the Consequence must be terrible, if not fatal to this Province. And therefore, We stongly Injoin You not to consent to any further Supply of the Treasury for any growing Charge of the Province Unless the Funds for discharging the same be put on sutable Years after Seventeen Hundred and Forty One. And as the Taxes are Exceeding high already, And that We may not be left a prey to the arbitrary will of every Officer, who may Occasionally have A Demand upon Us in relation to his Fees, We would therefore Recommend to You that You Use Your Utmost Endeavour that the Fees of the Officers may be fixed and ascertained to prevent Oppression, Uncertainty, and Disputes, which will necessarily Arise, Unless some good law be made to prevent the same. — And that no greater Fines be laid upon the Militia, unless the same be appropriated towards defraying the Charge and Expence of such Town to which they belong, According to the Design of Acts already made for that purpose.

We likewise Injoin You to Oppose the foreclosing the Deliberations of future Assemblies between this, and Seventeen Hundred and Forty One, relating to the Bills of Public Credit of the Old Tenor; but that they may be left free to Act when the Years shall come, According as they shall judge most Advisable for the safety of the Province.

And inasmuch as past Assemblies have interrupted the Operation of the Province Bills of the Old Tenor, and have not suffered them to pass according to the true intent of their Emission, but have made Bills of a New Tenor to Exchange the Old Bills, So that the very Nature of them are intirely alter'd, which will inevitably Cause the utmost perplexity in the Affairs of the Province ———

[**315.**] Therefore, We likewise Injoin You to Use Your utmost Power and Influence to Obtain An Act for striking off so many Bills of the Old Tenor, as will re-exchange all the Bills of the New Tenor already exchanged for the Old, That thereby the said Old Bills may Operate according to their Funds, and as shall be most consistent with the safety of this Province.

And, that the growing Charge of this Province added to the Funds already laid for calling in all Our Paper Currency by Seventeen Hundred and Forty One, may be set in a true light ——— to

shew the impractibility if not the impossibility of its being done, without causing the Utmost Confusion, if not Destruction of this Province:

We herewith present You with the following Account ——

		£	s	d
1738.	Fund for Calling in this present Year, the Sum of . . .	47875	,,	,,
	The Representatives Pay, for the Current Year	4000	,,	,,
	¼ Part of the Other Charge of the Current Year. . . .	10000	,,	,,
		.61875	,,	,,
1739.	Fund for Calling in that Year .	38025	,,	,,
	The Representatives Pay for 1738	4000	,,	,,
	¼ Part of the Province Charge on the year 1738 . . .	10000	,,	,,
	⅓ Part of the Charge of the Current Year	13333	,,	,,
		6.5338	,,	,,
1740.	Fund for Calling in that Year .	46525	,,	,,
	The Representatives Pay for 1738 .	4000	,,	,,
	¼ Part of the Province Charge the Year 1738	10000	,,	,,
	⅓ Part of the Province Charge the Year 1739	13333	,,	,,
	½ the Province Charge for that Current Year	20000	,,	,,
		.93858	,,	,,
[316.]	1741. Fund for Calling in .	£52525	,,	,,
	The Representatives Pay, for 1738	4000	,,	,,
	¼ Part of the Province Charge the year 1738	10000	,,	,,
	⅓ Part of Ditto, 1739	13333	,,	,,
	½ the Province Charge of 1740 .	20000	,,	,,
	The Whole Charge of the Province the Current Year . . .	40000	,,	,,
		£139858	,,	,,

So that according to the projected Scheme, this Province must bring into the Treasury Every Bill of this Province by Seventeen Hundred and Forty One, Which Amounts to the Sum of Three Hundred and Sixty Thousand, Nine Hundred and Forty Nine, Pounds ——— Or Otherwise Three Hundred and Sixty Thousand, Nine Hundred and Forty Nine Ounces of Silver, Saving what small Matter may be paid into the Treasury in Hemp and Flax.

Thus stands the State and View of Our Affairs, at present.

Wherefore, We Injoin You to Use Your Utmost Powers, That the Funds be laid in Paper Bills of the Old Tenor, and not in Bills of the New Tenor redeemable in Silver and Gold, Which cannot possibly be Obtained by the Inhabitants of this Province.

And as the lessening of the Excise will increase the Publick Taxes, So, We Injoin You to make a due Inquiry into the Method of letting the same out to Farm, And Whether there has not been indirect methods Used therein; And that the Same be Rectified and Regulated according to the True Intent and Meaning of the Act ——— Especially in relation to the Excise of the County of Suffolk.

[317.] And, Whereas We Apprehend there will be An Attempt made for the Division of this County — We would Earnestly Desire You to Oppose the same; — And for Reasons, We Refer You to the Answer of the Town of Boston, relating to that Affair, Exhibited to the Great and General Court, at their Session, the 19th. Nov. 1735.

All which is Humbly Submitted ——

Whereas, the Inhabitants of the Town of Boston labour under difficulties and hardships in respect of the weight of Hay brought to Market, by reason whereof Disputes often arise between the Buyer and Seller ——— And it being propos'd, As a Remedy therefor to Erect [**323.**] An Engine at the Entrance into the Town convenient for Weighing of Hay ———

> Pursuant to the Vote of the Town, the 21st. of November instant, The Committee appointed to draw up an Answer to a Petition of some of the Inhabitants of Rumney Marsh which they have prefer'd to the General Court, Praying that they may be set off, as a Separate Township —— Have Attended that Service, and Accordingly have Drafted and Signed, an

Answer, which they now Present to the Town, Viz^{t}.

Province of the Massachusetts Bay }

> To His Excellency Jonathan Belcher Esquire Captain General and Governour in Chief, the Honourable the Council, and Honourable House of Representatives of said Province, in General Court assembled at Boston, the Thirtieth of November 1738.

The Answer of the Inhabitants of the Town of Boston, to the Petition of a small number [325.] Of the Inhabitants of the District, Number Thirteen — commonly called Rumney Marsh, part of said Town, to this Honourable Court —— Praying that they may be set off as a distinct Township, for a Suggested Reason Contained in said Petition.

The Town of Boston, Humbly Sheweth,

That Some of the Inhabitants of the District of Rumney Marsh did on the Thirty first of January, One Thousand Seven hundred and Thirty four, Prefer a Petition, and on the thirteenth of March, One Thousand Seven Hundred and Thirty Seven prefer one other Petition to the Town of Boston, in order to obtain from said Town Several Advantages, and also to be set off as a distinct Township.

In regard to Said Petitions, the Town appointed two Several Committees to hear the Petitioners, Consider of, and Report what they thought adviseable for the Town to do thereon. Which Service they accordingly performed ——— The Copy of which Petitions with the Reports thereon, We humbly beg leave to lay before this Honourable Court.

And We may Justly Observe, and say,

That in Answer to all their Petitions and Complaints heretofore made, where there has been the least colour, the Town have readily pointed out proper Remedies, and stand ready to afford them.

And the Petitioners having been Conscious that the Town are ready to do so, have betaken themselves to this slender Plea, of Passing Winnisimet Ferry; Which We apprehend they would never have done, were there not some Secret Springs of their Actions, which we cannot Account for, notwithstanding all their dutiful and affectionate Regard to their Mother Town, so fully express'd in their present Petition.

But, Inasmuch as they think it most for their Service to lay so great Stress upon That Single, tho' [**326.**] Small inconvenience, We think it incumbent upon us to Observe, That there has ever been given them, so little interruption in that matter, as that Neither they nor their predecessors have ever heretofore thought it sufficient cause of Complaint to the Town, nor can they Say, that One year in Ten (Communibus Annis) for the Time past, they have been prevented in giving their Attendance at Town-Meetings: Nor can it be reasonably Supposed that for the future they will be otherwise interrupted by that means, which they make no difficulty of in daily exposing themselves to, in the common affairs of Life ——— But should they, Yet their coming by Penny-Ferry will be attended with very little charge and trouble.

We would now humbly beg leave to lay before Your Excellency and Honours the unreasonableness of the Prayer of said Petition,

I. In Respect to the Inhabitants of that District.

It ought reasonably to be Supposed, that When any Petition is prefer'd to this Honourable Court for such a Separation as is desired by the Petitioners, that it is the Mind of the Principal number of the Inhabitants, Or to remove some Grand Inconvenience, Or to preserve Peace and good Order, Or lessen the Charge with which said District labours under their present Circumstances ——— Neither of which We apprehend can by any means be pleaded in the present Case.

For, It's very Observable, that Not One Third part of the Inhabitants of that District have Signed their Names to any of the Petitions, And consequently that they cannot by any means be thought as consenting thereto ——— More Especially, John Yeamans Esquire, Joseph Thompson Esquire, nor their Agents, nor the Reverend Doctor Sewall, are any ways privy to the deliberations had, nor [**327.**] Drafting of, nor Presenting said Petition to this Honourable Court, notwithstanding they are the Proprietors of Noddles-Island, Hog-Island, and very valuable Farms at Rumney-Marsh. And further, We find by the Rates

and Taxes, that One Hundred and Twenty one Persons are Rated and Taxed within the said District, and but Twenty Eight Persons Names Subscribed to the depending Petition.

And as to any grand Inconvenience ——— All that is pretended is, the small trouble of passing a Ferry which We Humbly conceive, would not have carried so great Weight with it (tho' all the Inhabitants of that District had Subscribed to the Petition) as to have Influenced this Honourable Court to separate such a valuable Member from the Body of the Town of Boston, Especially considering how small a Tract of Land, and how unable they are to Support the necessary Charge of a Separate Township.

And as to the promoting of Peace and good Order ——— It can never be Supposed, that the Granting the Prayer of such a Small Number of Petitioners, whereby a much larger, and more valuable Number must be necessarily concluded, can ever be attended with such desireable Effects.

And as to the lessening the small and favourable Charges with which the said District has been Assessed It is very reasonable to Suppose, that their Charge will (upon such a Separation) be near doubled.

II. In Regard to the Town of Boston.

We humbly Apprehend, that by such a Separation the Town will be Strip'd of a very valuable Revertion, which will revert to the Gospel Ministry in the Town of Boston; under certain regulaitons, being no less than Three or more very valuable Farms at Winnisimet ——— being part of the Estate of Governour Bellingham [**328.**] Bequeathed to his Wife, after his Wives Decease then to his Son, and his Daughter, and after their Decease the whole Estate to pass, and the Annual Income to be Applied to the Encouragement of the Gospel Ministry, &c. As by an Extract from the Record in the Probate Office for the County of Suffolk, may more fully appear.

Moreover, It's well known that the Town of Boston labours under very distressing Circumstances upon many accounts.

The visible Declension of Trade, and the growing Advantages of the Husbandman, especially those, who by the nearness of their Lands to the Town of Boston, have the greatest Opportunity of making Such Singular Advantages, as the Members of the Town of Boston under their present Circumstances are very great Strangers to, especially this valuable part of our Body (call'd Rumney Marsh) Who by the Indulgence of this Town are grown Rich, and well Able to help Us, under Our present difficulties. For Boston being the Receptacle of almost all the Poor that come into this Province, by reason that most Foreigners fix here, and cannot be prevented, Provided, they bring with them the value of Fifty Pounds, or are able bodied Trades-men, or Indented Servants, or Sailors under most Circumstances, Create so great a Charge to this Town, that, instead of having the least of our Members Separated from Us, We cannot but Hope and Desire, that this Honourable Court will so far take Our Distressed Circumstances under their most wise and just Consideration, that they will afford Us such Aids and Advantages as may in some Measure Extricate Us therefrom

And, inasmuch as the General Court [**329.**] Of this Province, at their Session the Third of September One Thousand Six Hundred and Thirty Four, Annexed Winnisimet and Rumney Marsh to the Town of Boston ——— So, We cannot but Hope and Desire, that this Honourable Court will not, without the strongest Reasons, and most pressing Necessity, Separate that valuable Member from Us.

All which is Humbly Submitted.

Pursuant to the Vote of the Town as above, We the Subscribers have Considered the Affair referred to Us, have View'd the Place —— And Report thereon, as follows, Viz^{t}.

That, Whereas in Time past, the Water from Beacon Street principally run across the Common, and so took its course into Winter Street —— We apprehend the same is now intirely prevented by the raising the Ground in the Common, near the Entrance into the said Street —— So that now, the Water from Beacon Street will Spread over the Common, and as little run down thro' Winter Street, as thro' most Streets in the Town.

Wherefore, We are of Opinion, there is no Occasion for the Town to do any thing further thereon.

Read, and is as follows, Viz^{t}.

Pursuant to the Vote of the Town as above, We the Subscribers have Considered the Affair referred to Us, And Report thereon, as follows, Viz^{t}.

That the Safest Way of Conveying Powder to the Powder House, is to do it by Water, at all Times while the River remains Open; And Therefore, that all Persons Importing Powder be Obliged to convey it from on board Ship, in a Cover'd Boat or Boats, to the bottom of the Common, near the Powder House, and that it be carried from [**351.**] The said Boats to the Powder House, in a cover'd Cart or Carts unshod; And in the Winter Season, while the river remains frozen, that it be brought from on board ship in cover'd Boats as aforesaid, unto the Bull Wharf, at the South End of the Town, and from thence convey'd in Cover'd Carts unshod to the Powder House.

And in Order thereto, We think it adviseable, That the Gentlemen Who may be Elected to Represent this Town in the Great and General Court approaching, be desired and directed to Use their Endeavours, that a Law may be Enacted for this End, with a Penalty annexed.

As to the Carrying Powder from the Powder House thro' the Town —— We Apprehend the Law of this Province, already made and provided, to prevent danger by Careless Persons carrying it Uncover'd (if duly Observ'd) may be sufficient. ——

[358.] The Committee appointed the Second instant, to Draw up Instructions to be given to the Representatives of the Town of Boston, having Attended that Service, They Humbly lay the Draft they have prepared before the Town for their Consideration. Which is as follows. Viz^{t}.

To Messieurs Thomas Cushing Jun^{r}. James Allen, Edward Bromfield and Christopher Kilby.

Gentlemen,

We the Freeholders and other Inhabitants of the Town of Boston, duly Qualified and regularly Assembled having Chosen You for Our Representatives, to Appear for Us in the Great and General Court of this Province for the year ensuing ——

And Whereas the Hardships, Difficulties and Distresses of this Province in General, as well as this Town in particular, are Daily increasing upon Us, and are now got to such a Height, that if the Strictest Application added to the most fruitful Invention does not instantly Appear for Our Relief, We must (in the Eye of Human Reason) Sink under the Burthen and Weight of Our Misfortunes —— And therefore We now Apply to you Our Representatives, with whom We have intrusted the Management of all our public Affairs, And upon Whom (in Conjunction with the other Worthy Members of the Honourable House of Representatives) We instantly depend for Relief under Our most deplorable Circumstances. And, Inasmuch as We have been amus'd with Speculations only, for several years past, few of which have been reduc'd to [359.] Practice, neither have they been attended with the desired Success —— Therefore We sincerely as well as humbly Apprehend Our Danger is such, that Ruin and Destruction must unavoidably Ensue, unless some propitious Expedient be immediately (not only projected but) Practiced for Our Relief.

And Therefore, We most Earnestly Recommend to you, Our Instructions upon several Important Heads.

I. Our Trade, which is so notoriously Decaying every year more and more, and that so Evident, that it needs neither Argument nor Instances to demonstrate it. even to the meanest Capacity: Every One feels it, complains of it, and yet No One hitherto has been so fortunate as to exhibit an Expedient for Our Relief —— We know the Cause, and yet have hitherto been unable to procure any Means to divert the ill Effects.

Our Trade labours under the utmost Discouragements by the extremity of low Markets abroad. Our neighbouring Governments, especially Rhode Island, Who are daily Rivalling of Us in Our Trade, and Medium of Paper Currency, and the liberty they have of Importing the Surplusage of all their Commodities Foreign and Domestick into this Province for Sale at such easy rates; and Our excessive Taxes, add to them Our Impost to be paid in Silver and Gold, and the many Frauds practised in the Quality, Weight and Measure of almost all commodities either Consumed amongst

Us or Bought up for Foreign Markets —— These altogether, are such Burthens, as are Insupportable, and if not rectified will indanger the Trade of the whole Province: For it is Evident beyond Contradiction, that if Rhode Island can make what Paper Bills they please, and Our Hands are ty'd so as we can make none, and yet Our Necessities should Oblige Us to take theirs, and part with valuable Commodities, Nay, even Our Lands for them, if We continue to be heavily Taxed, whilest they are free from Taxes —— What Advantages are there which they will not have over this Province? [**361.**] They may Purchase it all in a few years if they go on and increase in proportion to what they have done for several Years past (Witness the very last Year, in which We gave an Instruction upon this very Head, Since which, that Colony has Emitted, One Hundred Thousand Pounds in Paper Bills, and Notwithstanding An Act of this Province is pass'd, prohibiting the Currency of them amongst Us, Yet, its much to be fear'd (Inasmuch as there has been nothing done within Ourselves, for Our Relief in respect to a Medium) let Our Aversion to their Bills be what they will, and Our Acts against them never so strong, Yet Our Circumstances and Necessities will force the People to take them) And therefore in Order to Increase Our Trade, We Apprehend, it will be absolutely Necessary to have a Sufficient Medium under good regulations, and reject theirs, and to lessen our Taxes, especially Our Impost; And a further Encouragement to Our Trade will be to Enact that a Drawback be Allow'd upon all Foreign Goods imported, Upon which there is a Duty paid, Upon their being re-exported, as is highly reasonable, and the well known Practice of Our Mother Countrey.

II. And Whereas We apprehend ourselves grievously Oppress'd by a very large and disproportionable part of the Province Tax, laid upon us for several years past, compared with the proportion paid by Other Towns within this Province; And However the proportion may have been heretofore thought reasonable, yet as all things are liable to a Mutation, So the Circumstances of this Town of late Years are exceedingly Alter'd by reason several Maritime Towns within this Province are continually Rivalling of Us, and have Actually Stripp'd us of several valuable Branches of Trade, which must necessarily render Us less able to pay Our wonted Tax [**361.**] Whilest they are more able, and ought to Pay a much larger than they have heretofore done. ——

And altho' We have often Complain'd, yet hitherto have had very little Redress, And as the Scarcity of Bills of Credit, and Decay of Our Trade, and Lessening Our Navigation increases upon Us, so Our Taxes ought to be reduced in Proportion —— And therefore We Earnestly Desire You to Scrutinize into the Circumstances, Trade and Taxes of the several Towns within this Province, and so Endeavor that Our Proportion of the Public Province Tax may be reduced, according to Our Circumstances at this Day, Compared with Other Towns.

III. Our Bills of Public Credit, which are of the Utmost Concern to the general Interest of this Province, as well as all the Trading Towns in particular. And as the Distressing Circum-

stances of this Province are increasing upon us in proportion to their being Call'd in, and destroyed, without suitable Provision being made, for somewhat to pass as a Medium in Lieu thereof, So the Consequence must be terrible, if not fatal to this Province —— And therefore We strongly Enjoyn You, Not to Consent to any further Supply of the Treasury for any growing Charge of the Province, Unless the Fund for Discharging the same be put on sutable years after Seventeen Hundred and Forty One.

And as the Taxes are so exceeding high already, and that We may not be left as a Prey to the arbitrary Will of every Officer, Who may Occasionally have any Demand upon Us, in relation to their Fees, We would therefore recommend to You, that You Use Use Your Utmost Endeavour, that the Fees of the Officers may be fixed and ascertained, to prevent Oppression, Uncertainty and Dispute, which will necessarily Arise, Unless some good Law be made to prevent the same.

We likewise Enjoyn You to Oppose the foreclosing the Deliberations of future Assemblies between this and Seventeen Hundred and Forty One relating to the [**362.**] Bills of Public Credit of the Old Tenor, but that They be left Free to Act when the Years shall Come, According as They shall judge most Adviseable for the safety of the Province —— And inasmuch as past Assemblies have interrupted the Opperation of the Province Bills of the Old Tenor, and have not Suffer'd them to pass according to the true Intent of their Emission; But have made Bills of a New Tenor to Exchange the Old Bills, So that the very Nature of them are intirely Altered, which will inevitably Cause the Utmost Perplexity in the Affairs of the Province, ——

Therefore We likewise Enjoyn You to Use Your Utmost Power and Influence to Obtain an Act for Striking off, so many Bills of the Old Tenor as will re-exchange all the Bills of the New Tenor already Exchanged for the Old, that thereby the said Old Bills may Operate according to their Fund, and as shall be most consistent with the safety of this Province.

And That the growing Charge of this Province added to the Fund already laid for Calling in all Our Paper Currency by Seventeen Hundred and Forty One, may be set in a true Light, to shew the Impracticability, if not Impossibility of its being done, without causing the Utmost Confusion, if not Destruction of this Province —— We herewith present You with the following Account.

1739.	Fund for Calling in this Year, Bills of the Old Tenor .	. ,,	25525 ,,	,,
	Bills of the New Tenor £12500 . . with Two Hundred p Cent Advance upon it, makes .		37500 ,,	,,

	1741.	Fund for Calling in this Year, Bills of the Old Tenor . .	,,	25525 ,,	,,
		Bills of the New Tenor, £9000. with Two Hundred p Cent advance upon it makes . .	,,	27000 ,,	,,
		Representatives Pay, in Bills of the Old Tenor . . .	,,	4000 ,,	,,
		Charges of the Current Year, in Bills of the Old Tenor . .	,,	40000 ,,	,,

.96525 ,,	,,	
£.312075 ,,	,,	

So that according to the projected Scheme, this Province must bring into the Treasury, every one of their Bills by Seventeen Hundred and Forty One, which amounts to the Sum of Three Hundred Twelve Thousand and Seventy five Pounds; Or otherwise, Three Hundred Twelve Thousand and Seventy five Ounces of Silver, Saving, what small Matter may be paid into the Treasury in Hemp and Flax.

Thus stands the state and view of our Affairs at present —— Wherefore We Enjoyn [364.] You to Use your Utmost Power, that the Funds be laid in Paper Bills of the Old Tenor, and Not in

Bills of the New Tenor, redeemable in Silver and Gold, which cannot possibly be Obtained by the Inhabitants of this Province.

IV. And Whereas the Public Affairs of this Province are exceedingly Embarras'd, and the Relief which We have so earnestly and long expected from Home, hath not hitherto had its desired Success — And having duly inquired into the reason of this Aggrievance; We Apprehend that the unhappy Situation of Our Public Affairs at Home, and their not being Solicited in such a Manner as the Urgent Necessities of this Province absolutely requires, is Owing to Nothing so much as the Want of a proper Agent or Agents, duly, and timely to Solicit all Our Public Affairs at Home, which may be transmitted thither from Our Honourable House of Representatives, and that such Agent or Agents be appointed and depend upon the Honourable House of Representatives only.

And Therefore, We strongly Enjoyn you, to use your utmost Power and Influence (in Conjunction with the Other worthy Members of the Honourable House of Representatives) that such an Agent or Agents be appointed by the Honourable House, in such Manner, and for such Ends and Purposes as shall occasionally Appear for the Necessity, Safety, Security and General Weal of this Province; And that such Agent or Agents Depend upon the House of Representatives only

Your most Humble Servants.

the Towns Interest there; for that, the former Leases (two only excepted) Expired some time ago, And the Select Men were prevented Advertising them, according to the said Order, by reason of their being then Contested in the Law.

NATHAN^{L}. CUNNINGHAM
EDWARD WINSLOW
Sept. 18. 1739. SAMUEL SEWALL
SHEM DROWNE
JOHN COLMAN

To His Excellency Jonathan Belcher Esquire, Captain General and Governor in Chief in and over His Majesty's Province of the Massachusetts Bay in New England, the Honourable the Council and House of Representatives, in General Court Assembled, the 19th of Septem^{r}. Anno Domini, 1739.

The Memorial of the Town of Boston.

Humbly Sheweth,

That Whereas there is [**371.**] Great prospect of a General War, which will much Affect the Trade of this Province in general, and the Town of Boston in a particular manner —— Your Memo-

rialists therefore beg leave to Represent to Your Excellency and Honours the Defenceless State of the said Town —— Our Batteries being gone to decay, and the Province Galley, and Sloop, which were for the Defence of Our Coast, disposed of, and applied to the Sinking Fund of Our Public Taxes, as has also the Impost, which Ever since the last War, has been continued, Altho' when the War Ended, the Occasion of that Tax Ceased also — Which Duties of Impost have been principally paid by the Town of Boston, and has been a very heavy Burthen upon the Trade thereof, to which may be added, not only Our growing Charges, but also the Great, and (as We Humbly Apprehend) disproportionable part of the Province Tax paid by the Inhabitants of this Town;

And Considering, that the Safety and Security of the Province very much depends on Our Coast, Harbour and Town being Defended by proper Guard Vessels and Fortifications —— Considering also, the nearness of Cape Breton, from whence We may expect in all probability, A Number of Privateers will soon be fitted out, whereby Not only Our Vessels from Europe, but also Our Fishery, and Coasters (on which great part of Our Food and Firing depends) will be Expos'd.

For which Reasons,

Your Memorialists Humbly Pray, That Our Defenceless Condition may be taken into Your Wise Consideration —— That Our Sea Coast may be suitably Guarded —— Our Decay'd Batteries Repair'd, And such Other Provision made for Our Safety and Defence, As Your Excellency and Honours, in Your Great Wisdom, Shall see Meet.

And Your Memorialists, As in Duty Bound, Shall Ever Pray, &c.

Voted, That the Draft of an Address now Reported by the Committee, be Accepted —— That the Select Men be Desired and Directed to Sign the Address in the Name and by Order of the Inhabitants of Boston —— And that the [372.] Representatives of the Town Present the same to the Great and General Court, at their next Sitting.

Voted, That the Thanks of the Town be given to the Gentlemen of both Committees, for their Pains, in Attending the Services respectively desired of them.

Then the Meeting was Dismiss'd.

At a Meeting of the Freeholders and other Inhabitants of the Town of Boston, on Tuesday the Twenty fifth of September, 1739. According to their Adjournment made the Twenty Seventh of July, last.

Upon a Motion made and Seconded ——

Voted, That this Meeting be further Adjourn'd to Fryday the Twelfth of October next, at Three O'Clock Afternoon.

Fryday, October, 12th, 1739.

The Town being Assembled according to Adjournment.

Mess^{rs}. Thomas Moffatt, and
William Greenleaf,
were Chosen Collectors of Taxes for the Current Year.

The Committee appointed the 18th. of May last past, Upon the Petition of Mr. John Staniford, Reported thereon, which was Read, and is as follows, Viz^{t}.

Mr. Stephen Rogers was Chosen Constable. Sworn.

Samuel Adams Esqr. from the Committee appointed to Enquire into the Towns Rights on and about Fort Hill, and on the Petition of Messieurs Andrew and Peter Oliver, Reported thereon — Which was Read, and is as follows, Vizt.

Pursuant, to the aforewritten Votes — We the Subscribers have been upon, and carefully Viewed the Battery Ground at the foot

of Fort Hill so called, And find that the Southeast end thereof is greatly Encroached upon and encumbred with Buildings, Wharves Timber and Lumber where the Guns of the Battery now lye, and where the Guns were formerly Planted for the Defence and Safety of this Town and the Inhabitants thereof — And that the Northerly part of the said Battery Ground is also Incroached upon and incumbred by Ship Timber and Plank lying there. And upon a Careful Survey of the Land upon and around the said Hill, We find Several Encroachments made by Inclosures on the Northerly Side thereof, Which was, Time out of [**415.**] Mind, Enjoyed and laid Open for the Towns use, and that the said Inclosures on the Hill have been made within Twenty Years past, or thereabouts, And also that the Towns Land Reserved on the Easterly side of the Hill for the Townse, is Inclosed and Fenced in. ——— All which Encroachments are a Great wrong and Injury to this Town. And We are of Opinion, That the Town has a Right to Seventy five feet of the Sea-wall or Wharf before the Town, Adjoining to the Battery Ground.

And We are also of Opinion, that, for the Town to Lease out the Land upon and around the said Hill, as is propos'd by Mess^{rs}. Olivers Petition, would be Stripping of the Town and the Inhabitants thereof, of One of the most Valuable Accommodations they now have; Nature having so framed the said Hill, that from it You have many fair Prospects, and the health of the Inhabitants refresh'd by a fine Air from thence in their Walking and Disporting; And that the same is very Convenient for Military Musters when it shall be found Necessary.

And We are Unanimously of Opinion, That it would be very prejudicial and Injurious to the Town and Inhabitants thereof to Make a Lease or Leases, as is proposed: And, That it highly Concerns the Town Speedily to Remove all the Encroachments made on the Battery Ground, and Fort Hill aforesaid.

1. That the Cord-Wood of this Town is cut too short, and especially the largest part of the Wood.

The Inhabitants being Assembled at the Meeting House in Brattle Street according to Adjournment, ———

The Laws respecting the Qualifications of Voters, Read again, and a Debate had thereon.

A Petition of Sundry Inhabitants ——— Read again and is as follows, Viz^{t}.

To the Honourable John Jeffries Esquire, and the other Select Men of the Town of Boston.

Whereas in the Year 1734, the Freeholders and other Inhabitants of the Town of Boston (among other things) Voted and Ordered a Place on the Town's Ground on the Town Dock, Called Dock Square to be Assigned for a Market Place, and the Court of General Sessions of the Peace in April, 1734, Allowed and Approved thereof, and a convenient Building was Erected on the said Ground, which was Improved some time for a public Market place, to the Satisfaction of a great Number of the Inhabitants ——— But so it has hapned, that the said Building, for some Years past has been [**424.**] Demolished and pull'ed down, and the Inhabitants of the said Town have had no certain Place for Buyer and Seller to meet at, which forces People to go out upon the Neck, and spend a great part of the Day in providing Necessarys for their Families, to the great hinderance of Business, and Loss and Damage of the Town.

And Whereas We are Informed that Peter Faneuil of Boston Esquire hath been Generally pleased to Offer, at his Own proper Cost and Charge, to Erect and Build a noble and compleat Structure or Edifice to be Improved for a Market, for the sole Use, Benefit and advantage of the Town, Provided that the Town of Boston would pass a Vote for that purpose, and lay the same under Such proper Regulations as Shall be thought necessary, and constantly Support it for the said Use ——— Which Generous Offer, We the Subscribers thought proper to Communicate to You, Desiring that a Town Meeting may be Warned to Assemble, as soon as may be, to know the Mind of the Town, Whether the Inhabitants will Accept of the said Building proposed? Which, As We conceive will tend greatly to the Good and Benefit of the said Town. And We the said Subscribers would Humbly propose, that Notwithstanding the said Building should be Encouraged, and come to Effect, Yet that the Market People should be at Liberty to carry their Marketing wheresoever they pleased about the Town, in Order to dispose of the same.

Boston July 2nd. 1740.

Signed, THOMAS PALMER

In the Name & by Order of the Committee.

Boston March. 23. 1740/1. SAMUEL WELLES.

The Committee's Report about Methods for laying out the Money that may be rais'd by Subscriptions for Fortifying the Town —— Read, and is as follows, Viz^{t}.

The Committee Appointed by the Town at their Meeting, March, 9th. instant, to wait on the Captain General and Consider in what manner, with his leave, it may be best to lay out such Money as shall be raised for Fortifying and Defending the Town, Are of Opinion,

That the Old part of the North Battery should be repaired, and that an Addition should be made of Fifteen feet on the South Eastern Side or Front of it, for the whole length, and at the North Eastern End about Thirty feet Added of the Breadth of both the Old and New Work, the Addition both to the length and Breadth to be of Stone, up to the Platform and Breast-Work, which they propose to be of Wood, the Breast Work of [**444.**] Square Pine Timber, and the Platform of Oak Plank.

That the South Battery be Rebuilt and fitted to Receive Guns in the former Line the whole Length of it.

That the House or Sconce by the South Battery be Repaired and made fit to receive and keep the Needful Stores, The Cost of these Reparations the Committee Apprehend will be Five Thousand Pounds.

The Committee are further of Opinion, that it will be very much for the Security and Defence of the Town, that it be render'd Impracticable in Case of an Invasion, for any large Ship to come

up the Channel, within about Three Miles of the Town, and that the Committee might Report more Understandingly, they have Measured the Breadth and Depth of the Channel between the upper Middle Ground and Governours Island, and find it between a Thousand and Eleven Hundred feet, and at Nipt Tides about Sixteen feet, deep on an average, except about Forty Feet which they find of the Depth of Twenty five to Twenty Seven feet; The Committee Propose that about Twenty Piers of Thirty feet Square each and Sixteen feet high, be built and placed within Fifteen feet of each other across the Channel, which will render it Impassable for a large Ship, except about Two Hundred feet in the best of the Channel, which may in a few hours be wholly Stop't by two or or three large Hulks, prepared and lying ready for the purpose, There is a place between the lower point of Governours Island and the lower part of Castle Island, which would be preferable to this if not too deep or broad (which some say is easier than this) but the Committee have not had Opportunity to Measure it, the Charge of this Stoppage, with large Allowance for loss and disappointment, the Committee have Computed at Fifteen Thousand Pounds.

In the Name and by Order of the Committee,

Boston March. 23. 1740/1 SAMUEL WELLES.

The Question was put, Whether the Town will [445.] Further pursue the Affair of raising Money, either by Subscriptions or Taxes, in Order to put this Town into a proper Posture of Defence in the Way and manner in which the Captain General insists it shall be done?

It passed in the Negative.

To His Excellency Jonathan Belcher Esq^r^. Captain General and Governour in Chief, the Honourable the Council, and House of Representatives, in General Court Assembled, March. 26^th^. 1741.

The Memorial and Petition of the Town of Boston, Humbly Sheweth,

That they Apprehend, it would be a great Security to the Province, especially to the Castle, if the Channel, below Castle William, between Castle Island and the South Eastern point of Governours Island was Stop't and made Unpassable for large Ships unless for the breadth of Three or Four Hundred feet in the best of the Channel as may be judged, would Sufficiently Accommodate the Common and Necessary Navigation; That they might be Able to make a more clear and certain Representation of this Affair to Your Excellency and Honours, the Town hath Appointed a Committee, who have **[450.]** Very Exactly Measured the Depth and Breadth of the Channel at the place aforesaid, and find it to be Fourteen Hundred and Fifty Seven feet Wide and that it is from about Three to Four Fathom deep and the very deepest not more than Twenty Seven feet at low water in Common Nip't Tides and not above Twenty Three or Twenty Four feet at low water in Common Spring Tides, As may be more particularly seen by a Plan herewith humbly presented; About Six Hundred feet on each Side of the Channel, It is proposed should be Stop't by Piers made of Timber and Stone Thirty feet Square and set Angling across the Channel at about Ten or Twelve feet Distance and about Twenty One or Twenty two feet high at a mean, till the whole Channel be Stop't, Except about Three or Four Hundred feet as aforesaid in the midst between the Flatts on the Side of Castle William and the Flatts from the South Eastern Point of Governours Island, and the Three or Four Hundred feet so left may be Stop't in a few hours, with Hulks prepared and lying ready for that end, The Charge of this

Undertaking has been Computed with large Allowance for losses and Casualties which may happen, at Eighteen Thousand Two Hundred Pounds, — Now May it Please Your Excellency and Honours, as the Treasury is not Supplied, and as there seem to be Considerable Difficulties in the Way of it.

It is humbly Requested, That You would please to Direct this Affair to be carried on if a Number of private Persons, will Advance Sufficient to effect this Work and wait without Interest till the Difficulties may be removed, and there shall be money in the Province Treasury for their Reimbursement.

Pursuant to the above Vote of the Town, We have made enquiry into the Circumstances of the North Writing School, which consists of about Two Hundred and Eighty Scholars, A Master and Usher, the Master has Two Hundred and Eighty Pounds p Annum, the Usher One Hundred and Fifty Pounds ——— We don't find that any Children of the Town have been refused, that could Read in the Psalter, nor any Demand of Entrance Money made of the Inhabitants, but only from Strangers Children, of which there is now about Ten in the School, and that for Firing some that are in low Circumstances Pay Nothing, others as they think fit, so that One with Another it Amounts to about Five Shillings a peice, the which Perquisites the Master insists on as his right and without it, can't Subsist in keeping the School having for some time paid an Assistant One Hundred Pounds, p Annum, out of his Salary, So that We are of Opinion that Nothing can be taken from the Master to Add to the Usher, but as it's Necessary that some Addition be made to the Usher, if the Town thinks proper to Add Thirty Pounds p Annum to his Salary, to begin the Twenty Eighth of May Currant, it may do well. ———

Whereas His Excellency the Governour has been pleased to Manifest his high Regard to this Town by making a present of His Majesty's Picture to be Set up in Faneuil Hall, The Town are deeply Sensible of the Great Honour His Excellency has therein done them, and do therefore Order that a Committee be Appointed to Wait upon [**506.**] His Excellency and in the Name of the Town to Return Him their Most Humble Thanks for so Valuable A present and to Assure His Excellency that it shall Always be the Care & Endeavour of this Town to do what in them lyes to make his Excellencys Government Easy and Happy.

Unanimously Voted, That the same be Accepted, and that the Honourable Thomas Cushing Esq^{r}. the Moderator of this Meeting, The Honourable Adam Winthrop, Ezekiel Lewis and Samuel Waldo Esq^{rs}., The Select Men and Representatives of the Town of Boston, be a Committee in the Name of the Town to Wait on His Excellency with a Copy of the same.

On the Motion made at the Opening of this Meeting by Mr. Middlecott Cooke relating to the North Writing School.

Voted, That the same be refer'd for further Consideration until the Select Men who Visit the Schools make Report thereon.

Voted, That the Select Men of the Town be desired to dispose of the Several Rooms and Apartments in the Market House, as shall be most for the Benefit of the Town and Cause all the Books Papers and Records of the Town to be removed into such of the Lobbeys as they shall think proper & that the Town Clerks Office be kept therein.

The Select Men Communicated to the Town a Letter they had received from Christopher Kilby Esq^{r}. bearing Date London as also a Petition of Abraham Francis John Jones & Hannah his Wife to His Majesty in Council, which were Read, but Nothing done thereon.

[**507.**] At a Meeting of the Freeholders and other Inhabitants of the Town of Boston duly Qualified and lawfully Warned in Publick Town Meeting Assembled at Faneuil Hall on Monday the 27. Day of December, 1742.

The Warrant for calling the Meeting —— Read.

And then a Question was put, Whether the Town would proceed to the Choice of a Moderator by a written Vote or a handy Vote?

And it passed for a Handy Vote, And the Honourable Thomas Cushing Esq^{r}. being Nominated, he was accordingly Chosen.

The three following Motions were made by Mr. Middlecott Cooke, Vizt.

That some further Care may be taken about the Law lately made for Packing of Provisions.

That some Care be taken for the just Admeasurement of Cord Wood.

And that some Care may be taken as to the Assize of Bread.

A Petition of Several Inhabitants of the Town (to the Select Men) for making a further Representation of the Distressing Circumstances of the Town, and their Inability to Pay the Tax now laid on them by the Honourable House of Representatives in Order to Obtain some Redress in the Affair —— being Read, and after a long Debate thereon ——

Voted, That the Select Men be desired in behalf of the Town immediately to Petition the Honourable House of Representatives that as a great part of the Personal Estate with their Trading Stock and Faculty in the Countrey Towns is not Exhibited nor have they Doomed them as We humbly Apprehend in proportion to what they have, And the Inhabitants of this Town are Doomed for much more than they have, That they would in their Wisdom & Justice, Either make us a reasonable Abatement of the proportion they have been pleased to Assign to Us and Charge the Several Countrey Towns for what Personal Estate and Trading Stock and Faculty they really have altho' not brought in, or otherwise Allow Us time for exhibiting Our Personal Estate with Trading Stock and Faculty in the same manner the Countrey Towns have done, Accept the same from Us and State Our Proportion accordingly.

On the Motions made by Mr. Cooke at the Opening of the Meeting.

Voted, That it be Recommended to the Gentlemen the Representatives of the Town of Boston, to bring forward in the Great and General Court, Laws for the more just Admeasurement of Cord Wood, and Packing of Provisions, And also for the just Assize of Bread Baked for Sale.

Then the meeting was Dismist.

[508.] Boston December. 27. 1742.

The following Petition was Drawn up, Signed & Presented by the Select Men to the Honourable House of Representatives, according to the Vote of the Town of this Day. Vizt.

To the Honourable House of Representatives of the Province of the Massachusetts Bay in New England.

The Petition of the Select Men of the Town of Boston by Order and in behalf of said Town.

Most Humbly Sheweth,

That to Our great Grief We are informed that the Honourable House have in their present Session Voted to increase Our Burden by Adding about Ten Pounds to Our Proportion of each Thousand Pounds of the Province Tax, And as We humbly Apprehend this to have proceeded from a Mistaken Opinion which the Honourable Members have Conceived of the present State and Condition of the Town —— We beg Leave to Represent to the Honourable House,

That Our Numbers are decreased, Our Trade is declining, Our Estates are lessened, Our Poor are increased and Our Necessary Expences in Our Families are daily growing upon Us, though this last mentioned Difficulty which proceeds from the Price of Provissions being much Advanced We Submit to with the greater Chearfulness because what in this Respect is a Loss to Us in the Town is a gain to Our Brethren of the Countrey where the Provissions are Raised.

We readily Acknowledge it to be Difficult to Determine the exact Proportion of the Town to the Countrey tho' We humbly Apprehend the present Disproportion may be made Apparent and indeed some of Our Wealthier Inhabitants have already Left the Town that they may pay less Taxes in the Countrey and others are preparing to follow them.

We beg Leave to lay before the Honourable House the Vote of the Town in which they express their Willingness that their true State and Condition should be known as exactly as possible, And We humbly Pray the Honourable House to take this Vote and Our Distressed Circumstances into their Wise Consideration and to Afford us such Relief as to their Wisdom shall seem meet —— And Your Petitioners as in Duty bound shall ever pray &c.
